NAVY SECOND TO NONE AIM OF PRESIDENT

United States Policy Calls for Ship Construction to Treaty Limit

EXTENSION OF AERIAL EQUIPMENT PLANNED

WASHINGTON, Aug. 4 (AP).—A navy second to none, efficient, well-balanced and capable of ready war-time expansion, today was pronounced the objective of the United States sea forces.

This was contained in a statement of policy, the first of the Hoover administration, signed by Secretary of the Navy Adams and issued in poster form to all branches of the naval establishment.

TO LIMITS OF TREATY

The new declaration advocated the maintenance of a fleet of all classes of fighting ships built up continuously to the limits of the London Treaty and maintained at that level by a replacement programme.

Outlining "fundamental naval policy," it was said, "the navy should be maintained in sufficient strength to support the national policies and commerce, and to guard the continental and overseas possessions of the United States."

MOBILIZATION OF INDUSTRY

A wholly new policy looking toward "industrial mobilization" in case of war, called for the determination of emergency material needs, plans for their procurement and the co-ordination of these plans with those of the War Department.

The policy on aircraft called for completion of the right shipyard under construction or appropriation for and for an extension of heavier-than-air activities.

MEXICAN BANK STOPS PAYMENT

Capital Gripped by Acute Financial Panic—Police Unable to Control Crowds

MEXICO CITY, Aug. 4 (AP).—A rush of depositors to withdraw funds from the Banco Nacional de Mexico, one of the largest international banks in the country, assumed the proportions of a run yesterday afternoon, while the Credito Espanol, a Spanish bank, which is also one of the country's most important financial institutions, was closed. A notice on the door of the latter bank advised creditors that it had suspended payments.

CONTINUES PAYMENTS

The Banco Nacional was continuing to pay depositors in full in spite of the demand. It has forty branches throughout the country and is capitalized for approximately \$10,000,000, with a reserve of about \$2,500,000.

The Banco Nacional is entirely a separate institution from the Bank of Mexico, which has a capital of approximately \$30,000,000 and branches in all the principal cities of Mexico. The Bank of Mexico was doing a normal business, while in most other banks business was almost entirely suspended.

Not Liable for Burning of Mill

NEW WESTMINSTER, Aug. 4.—The city is not liable in connection with the claim of C. W. Beach, trustee of the Barnet Lumber Co. Ltd., for \$135,000 as the result of the loss of the planing mill by fire in May, 1929, according to a letter received by the City Council from the city solicitors. Mr. Beach claimed damages because of alleged poor water pressure to fight the fire.

DUST STORM AT REGINA

REGINA, Aug. 4.—Reginians again groped their way around the streets rubbing red eyes with dusty knuckles as a high wind today picked up large quantities of dust and dropped it into the city in the form of a dust cloud. With the sun practically obscured, visibility was low and traffic impeded. Clouds to the north brought a promise of rain.

MANY PERISH IN MEXICAN FLOODS

TAMPICO, Mexico, Aug. 4 (AP).—Four persons are known to have perished in Tampico and it is believed many more died in other towns as the result of a flood which inundated 25,000 square kilometres of territory in Southern Tamaulipas and Northern Vera Cruz today.

A large part of Tampico was under three feet of water and several villages along the Panuco and Tamesi rivers are said to have disappeared under the flood waters.

Numerous human bodies and hundreds of cattle were reported to have floated down the river during the day, indicating a heavy loss of life at interior points.

The property damage is expected to run into millions as loss of crops and cattle on a large scale is reported from the inundated farm country.

New Zulu Uprising Reported

By ARTHUR BELL
(Copyright, 1931, by The Chicago Daily News Foreign Service)
JOHANNESBURG, Aug. 4.—The Zulu civil war has blazed out afresh with heavy casualties in a battle near Weenen.

Two thousand Zulus, armed in traditional fashion, with spears and shields, made a sudden attack on the location, killing scores. They were repulsed, however, in a heavy counterattack and fled to the hills.

The trouble started over a month ago, when guests at a Zulu wedding incinerated some of their hosts in a hut. Airplanes put down the uprising that ensued.

DEAN LAIRD OPTIMISTIC

Head of Visiting Tourists Says Conditions Not So Bad in East

"Business conditions in Eastern Canada are not as bad as people think. Of course, in the larger cities the slack time is more keenly felt, but on the whole the East is doing very well under the circumstances," declared Dean Laird, Laird, who yesterday brought thirty-four persons to Victoria on his eighth annual tour across Canada from Montreal to the Pacific Coast.

In an interview he gave at the Empress Hotel yesterday afternoon, the dean, hesitated when asked when world conditions were likely to readjust themselves. "That is a question I doubt if anyone can answer. We are all hoping for the best and are looking forward confidently to the future. It is true that we are in the rough, to use a golfing term, and we must put force behind the drive to get out of it," said the dean.

"IN THE ROUGH"

Dean Laird does not like the word "depression" and believes it is being used too much. Depression is a mental state, he says, and he does not think the people are depressed mentally, if they are industrially.

The dean, on his own admission, has played golf since he was four years old and rather likes to look on life as a game of golf, with some players better than others. During the interview he referred repeatedly to "the rough" as an illustration of conditions of life in this and other countries of the world.

Dean Laird has the facility to summarize. He described the conditions from coast to coast in a few sentences. "Business is the life of the country. The industries in Quebec which are down are newprint and asbestos; in Ontario, agricultural implements and allied lines are newprint in the Prairie Provinces it is purely agriculture and in British Columbia I find it is lumbering."

WESTERN OUTLOOK

In Southern Saskatchewan, Dean Laird said, the crop conditions were pitiful, but he heard brighter reports of Northern Saskatchewan and Alberta. Speaking of grain, the dean intimated his own opinion when he said "it is foolish to suppose that grain prices can be shot up to a high mark when at every season of the year some country is harvesting."

While not exactly blaming the co-operative organizations for all the trouble, he said, "they are the only ones who can help."

Fast Plane Completed In Secrecy

LONDON, Aug. 4 (CP).—Construction of the greatest secrecy of what is described as the world's fastest mail plane has just been completed by the A. V. Roe Airplane Works and put through flying tests at Manchester.

The mystery plane is reported to have exceeded 180 miles an hour, with a cruising speed of 150 miles. Several machines of this type will be put into service on the Empire air routes, which ultimately are expected to embrace Canada.

Blame Incendiaries for Fires in the Northwest

Hundreds Driven From Homes, Houses Destroyed and Cattle Killed as Result of Red Ruin Done by Firebugs

SPOKANE, Aug. 4 (AP).—Incendiary fires roared over Northwest forests tonight, driving hundreds of persons from their homes.

Major Earl Kelly, regional forester, said the Priest River fire in the Kankai National Forest of Idaho, appearing flame on a front of thirty miles, was "without a doubt of incendiary nature."

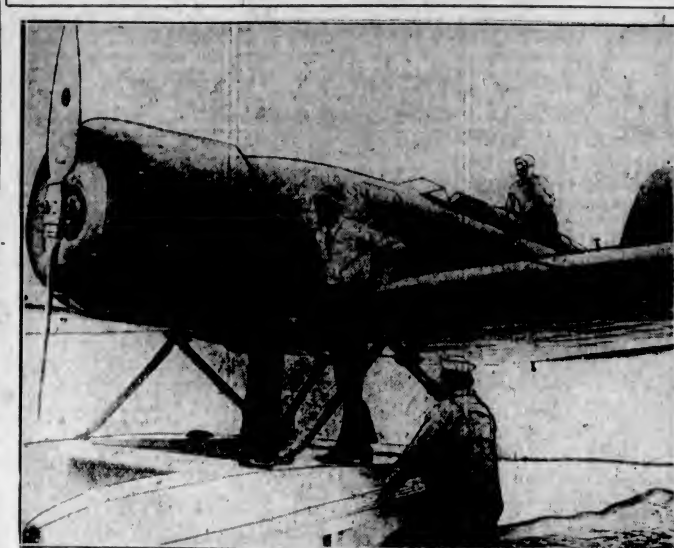

The giant Deer Creek conflagration in the Pend Oreille and Kootenai forests, he said, was also started deliberately by persons skilled in the craft of the timber lands.

FIRE-BUGS BUSY

Foresters further down in Idaho reported fire-bugs set a score of other blazes.

About 200 fires seared their way steadily through timber lands of Northern Idaho, Western Montana and Eastern Washington. Smoke hid the countryside, making actual

The Flying Lindberghs at Ottawa

COLONEL Charles A. Lindbergh is seen here chatting with an R.A.F. officer on the pontoon of his plane while at Ottawa. Mrs. Lindbergh, who is accompanying her husband on a holiday flight to Tokyo, is seen in the cockpit. From Ottawa the aerial vacationists flew to Moose Factory, Churchill and Baker Lake, from which point they took off last night for Aklavik, in the Mackenzie River delta.

U.S. Airmen Plan Nonstop Flight Across Pacific

Herndon and Pangborn Abandon Attempt to Better Round-the-World Record After Series of Misfortunes in Siberia—Will Fly to Japan to Make Tokio-to-Seattle Hop

By HUGH HERNDON, JR.
Co-pilot and Navigator of Round-the-World Flight
Copyright, 1931, in all countries by H.A.R.A., Inc.

KHABAROVSK, Siberia, Aug. 4.—Owing to continuous and severe storms, Clyde Pangborn and I have decided to proceed to Tokyo on our flight around the world. There we plan to await better weather for a nonstop flight from that city to Seattle.

While we are greatly disappointed over our forced abandonment of the effort to better the record established by Post and Gatty, we are taking advantage of the bad weather and the time required to repair the damaged wing of our plane to rest up and prepare for the hop to Tokyo and then the long flight over the Pacific.

We are both confident of success if a suitable field for a take-off with so heavy a load of gasoline as we will have to carry can be found at Tokyo.

IS LONG COURSE

If Herndon-Pangborn make a nonstop flight from Tokyo to Seattle, a distance by the great circle course of about 4,700 miles, they will accomplish two very real achievements. They will be the first to cross the Pacific Ocean nonstop, and by completing their flight around the world on that course instead of by going North across the Bering Sea to Alaska they will be more truly "flying around the world" than Gatty and Post did.

The flight has been attempted several times, but no one has ever succeeded.

LLOYD GEORGE IS GAINING RAPIDLY

LONDON, Aug. 4 (AP).—A most satisfactory report on the condition of Rt. Hon. David Lloyd George was issued by his physicians tonight. The bulletin said the former Premier was making steady progress, was free from pain, slept well and his general condition was improving.

He was operated on for a kidney ailment last week.

The flight has been attempted several times, but no one has ever succeeded.

Blame Incendiaries for Fires in the Northwest

MORE ROOM FOR CLOTH MILLS SEEN

Dr. Thomas Oliver Believes Victoria Is Logical Place for Factory

ALBERTA IS IDEAL FOR SHEEP RAISING

"It seems to me there is more room for the manufacture of cloth from Alberta wool either in Victoria, Vancouver or Calgary," declared Dr. Thomas Oliver, D.Sc., B.Sc., who arrived here yesterday to meet persons affiliated with the wool growing and manufacturing industry.

Dr. Oliver is head of the Scottish Woolen Technical College in Glasgow, Scotland, and proprietor of two woolen mills. As editor of The Scotch Tweed Journal he has had an excellent opportunity to watch the progress of the woolen industry in all nations and is at a loss to understand why Alberta wool is not used to a greater extent in Canada.

FINE OPPORTUNITY

"Alberta grows the finest wool of any province in Canada and it seems to me an expensive process to send the wool to Eastern factories only to be shipped West again as clothing. There is a splendid opportunity to develop the manufacturing of cloth in the West, even though your tariff seems to favor the Eastern manufacturer to the disadvantage of the Western planter."

Dr. Oliver said that British Columbia did not impress him as a sheep raising province, but he amended his statement by saying his knowledge of British Columbia was limited and there might be districts where sheep raising could be carried on under favorable conditions.

MARKET FOR MUTTON

"There are too many forests and crags in the British Columbia I have seen for successful sheep raising. The climate, however, is ideal. Alberta impressed me as the best wool growing province. Of course raising sheep cannot be made profitable on the sale of wool alone. There must be a market for the mutton and as far as I have been able to learn your problem is to cultivate a home market."

Edison Is Improving Steadily

WEST ORANGE, N.J., Aug. 4.—Thomas A. Edison was so far recovered from his recent collapse late today that his physicians permitted him to take a half-hour auto ride through his estate.

An hour and a half after Mr. Edison returned from his drive, Dr. Hubert S. Howe issued a bulletin which said: "His improvement during the last forty-eight hours has been so rapid that it will of necessity be slower from now on."

MANY MESSAGES

Scores of messages have been received by mail whiffers from all over the world.

BANDITS RAID STAGE OFFICE

Two Men Escape With \$500—Vancouver Has Epidemic of Robberies

VANCOUVER, Aug. 4 (CP).—Three bandits, traveling in a stolen car, held up a gas station at Forty-second Avenue and West Boulevard tonight and escaped with \$400 in cash and \$50 from the cash drawer.

Last night M. Taguchi, Corra Street, proprietor of a Japanese grocery store, reported that two men, one armed, forced S. J. Evans, clerk, into a back room, and looted the cash box of \$800, making their escape.

ROB WALTER

Forty minutes earlier two armed men held up William Henko, waiter, at Scott's Cafe, Pender Street, and took \$50 from the cash drawer.

Last night M. Taguchi, Corra Street, proprietor of a Japanese grocery store, reported that two men, one armed, forced S. J. Evans, clerk, into a back room, and looted the cash box of \$800, making their escape.

THREE AT GAS STATION

The latest of the bandit activities occurred at 6:30 p.m. today. Three men drove up to the gas station. One of them ordered oil and when W. J. Annand, attendant, entered the premises to procure it, the man followed him, and producing a revolver, ordered him to stand in a corner.

One of the remaining two bandits in the car came in and looted the till. The men then jumped into the car and drove away.

Chilliwack Woman Hurt At Seattle

SEATTLE, Aug. 4 (AP).—Three women were injured, one seriously, in a collision between two automobiles here last night.

Mrs. Ed. Graham, of Maple Valley, was taken to Harbor View Hospital with internal injuries, and Miss Frances Evans, of Chilliwack, and Mrs. Ray O'Brien, of Seattle, were treated at City Hospital for bruises and cuts.

The route decided on is by way of Allison Pass, and additional surveys will be necessary in some sections in this connection, to round out the

PROPOSE ECONOMIC CONFERENCE TO AID B.C. PRODUCTIONS

Three-Year Drive on Home Products Is Advanced as Means of Stimulating Business Revival—Easier Credit Terms and Return to Land Also Suggested

SUGGESTING co-ordinated efforts on the part of all classes of citizens in British Columbia in a war of aggression against all phases of business depression within the province through the medium of self-help, and a definite three-year drive through all agencies to stimulate home consumption for the increase of British Columbia payrolls, Hon. W. A. McKenzie, chairman of the unemployment committee, yesterday laid an informal summary of his proposals before members of the Cabinet.

Speaking in his personal capacity, Mr. McKenzie said he was fully convinced that there was much that citizens of the province could themselves do to bring about a return of better times. Entirely apart from what governmental and municipal measures may achieve, there was room, he said, for co-operative plans on the part of all organizations to foster those measures which would alleviate unemployment, not through emergency means, but by the development of British Columbia enterprises through the greater use of their products on the home market.

Mr. McKenzie said he intended to move for the formation of a special committee of the Cabinet to consider the feasibility of calling an economic conference on nonpolitical and fully representative lines, for a thorough examination of the whole subject. The stimulation of the sale of home products by a three-year drive was only one factor that could be employed in the amelioration of conditions within the province, he pointed out.

Other proposals, laid before the unemployment committee of the

PUBLISH LIST OF DELEGATES

India Office Makes Statement on Coming Round-Table Conference

LONDON, Aug. 4 (AP).—A total of 108 delegates will deliberate upon the future of India at the resumption of the round-table conference, according to an official statement made public by the India Office tonight.

The names of the participants are familiar from the previous round-table conference, but there have been some additions to the original list. The most notable of all additions is the name of M. K. Gandhi, whose participation, according to the latest advice from India, is not yet definitely assured, however.

ALL PARTIES REPRESENTED

All three of the British political parties will be represented, as they were at the previous conference. The Government delegates will be headed by Premier Ramsay MacDonald.

The Conservatives will be represented by the Earl of Peel, the Liberal Unionists by Viscount Halifax, and the Liberal Party by Sir Samuel Hoare and Major Oliver Stanley. The Liberal representation will include the Marquess of Reading, the Marquess of Lothian, Sir Robert Hamilton, Isaac Foot and H. Graham White.

OUTSTANDING FIGURE

Besides Mahatma Gandhi, most prominent among the new Indian delegates is Pundit Jadhavji Malaviya, an outstanding figure in the Indian National Movement for many years.

In a statement accompanying the list of delegates, the India Office said that the date is subject to the conference would depend upon the course of the deliberations of the Federal Structures Committee and the Minorities Subcommittee, which are meeting in advance.

Delegates are being asked to hold themselves in readiness to reach London by the end of October.

PUBLISH DATE OF THEIR OFFENSIVE

Canton Insurgents Announce Offensive Against Nationalists on August 15

CANTON, Aug. 4 (AP).—News-papers here asserted today the announced offensive of the Canton insurgent Government against the Nationalist Government at Hankow would be started August 15.

Contradicting reports from Shanghai yesterday that rebel forces of Shih Yu San, Northern Warlord, were hemmed in by Nationalist troops in Chihli Province and were suing for peace, the newspapers published stories of alleged victories of Shih Yu San, ally of the Cantonese.

Withdrawal of Nationalist troops from Kiangsi Province where they had been fighting Red and bandit armies, asserted the newspapers, left 200,000 refugees huddled in several cities in a precarious condition.

NONE YET TO FILE CHARGE

Brother Missionaries, However, Demanding Dr. Tucker Leave

By REGINALD SWEETLAND
(Copyright, 1931, by The Chicago Daily News Foreign Service)

TEHCHOW, Shantung Province, China, Aug. 4.—While a United States district attorney hunts through two ancient cities of Shantung for any Chinese to lodge a charge of murder against Dr. Francis T. Tucker, Chicago medical missionary stationed at the American Board Mission Hospital at Tehchow, north of here, American missionaries are going the Chinese extremist's way, demanding that Dr. Tucker instantly resign and leave China forever before anything resembling an anti-American missionary movement is launched.

So afraid are Dr. Tucker's colleagues of an outbreak that they are leaning over backward in their desire to placate Chinese agitators and any loyalty felt toward him is submerged by this.

SHOT AT BURGLAR
On July 11, Dr. Tucker shot and killed a Chinese burglar he had caught breaking into the hospital safe. The burglar turned out to be one of the hospital janitors. Dr. Tucker, who is here as a guest of the American Consulate until his fate is decided, told The Chicago Daily News correspondent that he shot the burglar for the purpose of bringing assistance, one stray shot being fatal.

Under American laws Dr. Tucker

START ON WORK OF VANDALISM

Cathedral Being Razed to Make Way for Palace of Soviets

MOSCOW, Aug. 4 (AP).—The destruction of the Cathedral of the Redeemer, one of Russia's largest and most imposing churches, has been commenced to make way for the building of a great auditorium to be known as the Palace of the Soviets.

The last services were held in the church on August 1 and the work of wrecking the building was started immediately. One of the first portions of the structure to be attacked by the wrecking crew was the great central gilded dome which is surrounded by four smaller ones.

SAVING THE GOLD
Seventy pounds of gold, it is said, were used in finishing the dome and this seems to be borne out by the fact that the peeling off of parts of the main dome.

North of the cathedral for several city blocks and eastward to the Moscow River, a section housing numerous large apartment houses and a little red church supposed to be the oldest in Moscow is an area which is also to be razed. Thus the great square will be made for a new convention hall where all large congresses of Soviet agencies will be held.

Inaugurate New Service

ABOVE are shown two planes operated by the Canadian Airways on the triangle route between this city, Seattle and Vancouver. The photograph was taken Saturday at the James Bay ship. The plane on the left was in from Seattle and landing for Vancouver, while Mayor R. H. Harlin, of the Puget Sound centre, being one of the passengers to the Terminal City. Mr. Harlin was welcomed here by Mayor Herbert Anson. The plane on the right was bound in the opposite direction, and carried Alderman W. T. Strath and R. W. Mayhew, president of the Victoria Chamber of Commerce, to Seattle. The plane was welcomed at the Lake Union ship by Philip Tindall, president of the Seattle City Council, and G. M. Halenbrack, of the Seattle Chamber of Commerce. Both planes are six-place Boeing flying boats.

DEAN LAIRD OPTIMISTIC

Continued from Page 1

bad things in the Prairie Provinces, he did say that the pools look too much like getting out of trouble.

"They should have gone out of the rough, if they knew they were in it, with all possible haste." From his own observations he concluded the pools had not only involved themselves, the banks and the Provincial Governments, but had endeavored to involve the Dominion Government.

"I think Premier Bennett showed sound common sense in dealing with the situation the way he did."

RECALLS FIRST VISIT
Dean Laird recalled his first visit to Victoria nine years ago and was a guest at a civic banquet. "At that time I assured the members of your City Council, who were present, that I would return again next year with my wife. I did, but I brought about ninety-nine other persons with me and I have been endeavoring to do that every year since."

This year's party is the smallest the dean has brought out of the East—thirty-four. Not many people are traveling these days, the dean said. "We have had a delightful trip across Canada and all the members of my party were looking forward to the Victoria visit. I am sorry we cannot spend more than a day and a half here. It is a city of flowers, it is charming, and it is a delightful atmosphere. The only thing that I find wrong is that the stores are closed on Wednesday afternoon."

MEMBERS OF PARTY
Dean Laird's party reached Victoria yesterday afternoon and is making the Empress Hotel the headquarters during the stay here. On their arrival, the visitors were taken for a tour of the city, returning in time to do a little shopping. Today some of the members will take the Malahat drive and others the city drive, but all will go to Burnside's Gardens in the afternoon.

The Dean's party included: Dr. and Mrs. Allen, Mr. and Mrs. Robinson, Mrs. and Miss Allison, Miss Lighthill, Miss Alice Lighthill, Miss Porteous, Miss King, Miss D. Smith, Miss B. Smith, Mrs. J. Ellis, Miss Allen, Miss Marshall, Miss Osgood, Miss Hutton, Miss Whelan, Miss McKinnon, Miss Noquet, Miss Sparrow, Miss Sparrow, Miss Chatfield, Miss L. Scott, Mrs. Moore, Mrs. Bruce, Mr. Kerr, Miss Whitcomb, Miss Kay, Miss Landy, Miss Bicknell and H. F. Palford.

MORE ROOM FOR CLOTH MILLS

market for mutton, which Canadians do not seem to buy in large quantities.

More than 20,000,000 carcasses of mutton have been imported into Britain annually from domestic supply and another 6,000,000 carcasses are imported. From this year the mutton supply in Canada rests on a development of the mutton market as much as it does on the manufacture of woolen goods.

Dr. Oliver is visiting relatives here and is staying at the home of George Oliver, 313 Edwards Street. He will return to Scotland after an extended tour of the United States, during which he will meet Chamber of Commerce and Government officials and will be stimulating further interest in Scotch tweeds.

U.S. AIRMEN PLAN NONSTOP FLIGHT ACROSS PACIFIC

Continued from Page 1

it. Last year Harold Gatty and Harold Bromley took off from Japan and flew more than 1,000 miles out, but bad weather, storms and fog, coupled with head winds, defeated their purpose. Gatty, in an even closer to accomplishing a course to Scotland after the Great Britain, was forced to turn back.

TEXANS FAILED TWICE
This year two Texas pilots, Reginald L. Robbins and Harold S. Jones, have twice failed to make a nonstop flight to Tokyo by meeting a refueling plane near Fairbanks, Alaska. On the first occasion bad weather forced the contact with the refueling machine, and on Monday of this week, after flying safely from Seattle, unfavorable weather again prevented a successful refueling.

If Herndon and Pangborn succeed they probably will win the award of \$25,000 offered by The Boeing Co. for the first nonstop flight from Seattle to Tokyo. Their plane was built for a range of about 5,000 miles. On the transatlantic crossing they flew

VICTORIA HAS BEST MUSEUM OF KIND IN WORLD, SAY EXPERTS

Continued from Page 1

"It is becoming very evident that better accommodation is needed," Mr. Markham stated. "As the knowledge of British Columbia and what it contains grows wider every year, it will be essential soon to make adequate provision for the proper display of these exhibits. Your collection of Indian relics, crammed as they are in the basement of the building, is a notable instance of this, and the only regrettable part of an otherwise magnificent treatment of museum work."

SPACE INADEQUATE
Sir Henry remarked on the admirable manner in which exhibits are arranged, the labeling, the cataloging and other details of the plan. He, too, commented on cramped quarters, saying this was the only fault he had to find with the entire exhibition. The party was shown over the museum by Francis Kermode, director, and William Kermode, assistant director.

At the library and archives they were met by Miss Alma M. Russell, assistant librarian, in the absence of John Kermode, who was in the company of the party for the committee at its recent meeting. These points have also been noted.

ATTENTION AROUSED
These proposals have invited lively attention throughout all the provinces, and some of the leading endorser of the suggested home products drive, and other features of the issue, have poured in on members of the committee this week.

If the Cabinet approves of the plan, and an economic conference is summoned, invitations, it is understood, would be sent out to all organizations of public and private character throughout the province. These would include banks and financial houses, boards of trade, city councils, retail stores, wholesale circles, distributors and transportation men, service clubs, men's and women's organizations, church associations, and in general, all media through which citizens may be reached individually in their homes and businesses.

Mr. McKenzie recently demonstrated how a publicity added percentage of home consumption would spell the difference between hard times and expansion for many British Columbia industries. While he used fruit and vegetable canning for his example, the same principle applies to all lines of endeavor, where the same articles are produced within the Province, and have to compete with unseasonable imports from other countries, he pointed out.

WOULD MEAN MILLIONS
Without in any way interfering with legitimate international trade relations, British Columbia citizens could add millions of dollars to the payrolls of British Columbia enterprises by exercising a slightly increased home preference in the basic industries, pick-up in employment, and greatly help towards reduction of the number of the unemployed, it is contended.

Mr. McKenzie made it clear he was expressing his own views on the subject. At the same time he indicated that he intends to bring the proposals fully before his colleagues on the Cabinet, with a view to more detailed examination of the suggestion that an economic conference be called to consider British Columbia problems and co-ordinated action towards their solution.

MUSEUM AUTHORITY
Sir Henry Miers is one of the world's leading museum authorities. Besides being president of the British Museums Association, he is an ex-chancellor of both London and Manchester Universities, a member of the Royal Commission on National Museums and Art Galleries, and a distinguished Fellow of the Royal Society. Mr. Markham represents a Labor division of Rochester, Kent, and was on his second visit to Canada. Sir Henry called here several times in the last twenty years, and remembers the excitement at the Klondike in the early days. Both members of the party expressed delight with the city.

Walkathon Champions Appear Here Tonight

Tonight, at the Super-Walkathon, the world's champion walkathons, who have appeared in more than fifteen big endurance contests, will appear in person, as the honored guests of the Victoria amateur champions. These great walkers have a programme that is unique, original and entertaining, and are making the greatest appearance, such favorites as Walter Grafsky and Val Grafsky, Jack Hayes and Marjorie Bennett, Johnny Boyce and Irene Prana, Dean Sharpe and Laverne Molitor, Curly Reynolds and Stella Parich, along with Dad Nelson, Billy Mack and Harry Rowe. They will appear here in conjunction with the Klondike Night, which is being staged here tonight by Tom Lidgate and his Sidney Old-Timers, who will present a programme of old-time music, singing and folk dances for the couples in this great endurance contest.

SCORE HURT IN BOMBAY FIGHT

Wild Commotion Occurs When Editor Gives Address — Attack Correspondent

BOMBAY, Aug. 4 (AP).—On the eve of participation of Mahatma Gandhi in the second round-table conference in London, a group of Indian Nationalists were attacked last night by members of the Opposition and more than a score of them were seriously injured.

The trouble arose when S. A. Breitt, editor of The Bombay Chronicle, tried to address a meeting of Nationalists and Mohammedans which was convened to support the formula of the Nationalist Congress for solving the problem by joint elections.

WILD COMMOTION
This objection was opposed by Hakim Abdul Jalli, a Nationalist Mohammedan, and the opposition became a signal for wild commotion. Hakim was dragged from the platform and assaulted. When he attempted to escape, his opponents threw sticks, umbrellas and clubs at him.

After running frantically from pillar to post and pleading with assistants, Hakim risked his life by climbing up a rickety ladder to the roof, where he escaped.

In the meantime wild disorder prevailed in the meeting hall. After the chairman had asked the audience to disperse, Editor Breitt switched off the lights and the audience became still more panicky. Alah, Hakim was dragged from the platform and assaulted. When he attempted to escape, his opponents threw sticks, umbrellas and clubs at him.

The Associated Press correspondent received a stunning blow while trying to emerge from the melee.

AUDIENCE STAMPEDE
Within less than five minutes, thirty persons were severely beaten, windows were smashed, furniture was wrecked and the audience entirely stampeded. It was two hours before quiet was restored by the arrival of police leaders who re-buked the crowd.

PROPOSE ECONOMIC CONFERENCE TO AID B.C. PRODUCTIONS

Continued from Page 1

Cabinet in its recent meeting with Fraser Valley Reeve's Association, included the suggestion that banks and financial houses be invited to consider a policy of extending credit more freely to basic British Columbia enterprises which were under sound management, and engaged in lines leading to the development of the natural wealth of the province.

Evacuation of cities and towns by that section of the unemployed who are seeking relief from the province, and who are capable of sustaining themselves on the land if given a little assistance at the start, was discussed by the committee at its recent meeting. These points have also been noted.

MAN INJURED IN AUTO COLLISION

Cars Badly Damaged at Fernwood and Pandora—Rex Stimson Taken to Hospital

Rex Stimson, driver for the Val Taxicab Company, was seriously injured early this morning when the automobile he was driving collided with another machine driven by W. H. Maxim, of Langford Lake Postoffice, at the corner of Fernwood Road and Pandora Avenue.

Stimson was taken to the Jubilee Hospital suffering from severe head injuries. He was unconscious when police arrived on the scene. Dr. Charles A. Watson rendered medical attention to the injured man on his arrival at the hospital.

Maxim escaped uninjured. Both machines were badly damaged. Stimson was driving on Fernwood toward Yates Street and Maxim was driving toward the city on Pandora Avenue when the crash occurred.

Church Damaged When Barn Fired

DUNDAS, Ont., Aug. 4.—Police of Dundas today were endeavoring to round up the persons who fired a barn adjoining St. Paul's United Church early today. The blaze spread from the barn to the church, destroying the tower, roof, and causing much damage to the organ and the interior furnishings. The loss is estimated at \$50,000.

WOULD MEAN MILLIONS
Without in any way interfering with legitimate international trade relations, British Columbia citizens could add millions of dollars to the payrolls of British Columbia enterprises by exercising a slightly increased home preference in the basic industries, pick-up in employment, and greatly help towards reduction of the number of the unemployed, it is contended.

Mr. McKenzie made it clear he was expressing his own views on the subject. At the same time he indicated that he intends to bring the proposals fully before his colleagues on the Cabinet, with a view to more detailed examination of the suggestion that an economic conference be called to consider British Columbia problems and co-ordinated action towards their solution.

MUSEUM AUTHORITY
Sir Henry Miers is one of the world's leading museum authorities. Besides being president of the British Museums Association, he is an ex-chancellor of both London and Manchester Universities, a member of the Royal Commission on National Museums and Art Galleries, and a distinguished Fellow of the Royal Society. Mr. Markham represents a Labor division of Rochester, Kent, and was on his second visit to Canada. Sir Henry called here several times in the last twenty years, and remembers the excitement at the Klondike in the early days. Both members of the party expressed delight with the city.

Walkathon Champions Appear Here Tonight

Tonight, at the Super-Walkathon, the world's champion walkathons, who have appeared in more than fifteen big endurance contests, will appear in person, as the honored guests of the Victoria amateur champions. These great walkers have a programme that is unique, original and entertaining, and are making the greatest appearance, such favorites as Walter Grafsky and Val Grafsky, Jack Hayes and Marjorie Bennett, Johnny Boyce and Irene Prana, Dean Sharpe and Laverne Molitor, Curly Reynolds and Stella Parich, along with Dad Nelson, Billy Mack and Harry Rowe. They will appear here in conjunction with the Klondike Night, which is being staged here tonight by Tom Lidgate and his Sidney Old-Timers, who will present a programme of old-time music, singing and folk dances for the couples in this great endurance contest.

Death Roll Of Holiday Is Abnormal

LONDON, Aug. 4.—Glorious weather which caused many thousands to seek the seaside and country during yesterday's bank holiday, also assisted to furnish an abnormal holiday death roll. Twelve bathing fatalities were reported, but in contrast, road accidents, while plentiful, were rarely serious. One bathing party of a man and his two sisters, at the Chichester Estuary, in Sussex, was drowned in dangerous currents.

MISSING OFFICER BELIEVED DEAD

Disappearance of Major Harold Holme Linked With Clothing Found on Beach

While a wife, with her two children, in England, anxiously awaits word from her husband, Major Harold L. Holme, D.A.O., police here are investigating the possibility that the clothing found last Saturday on the Dallas Road waterfront may mark the tragic end of a brilliant military career.

The clothing was discovered by Albert Keep, of 1110 McKenzie Street. Police investigated, but at first could not identify the owner of the clothing.

Later they learned of the disappearance of Major Holme, who had not been seen by friends for several days. Further investigation revealed that on one piece of the apparel found on Dallas Road was printed the name "W. L. Holme."

CONTINUE INVESTIGATION
While authorities are not certain the clothing belonged to the officer, they are continuing their investigations along this line. They have already learned that Major Holme was accustomed to taking early-morning dips in the ocean, and that he was subject to heart trouble. It is believed he may have gone in for a swim and that the chilly water brought on a heart attack which would probably be fatal to a man swimming in the cold water off Beacon Hill.

It was learned Major Holme had come here on a vacation and planned to leave for Europe on August 12. Police were unable to learn whether he had advanced the date of his departure.

SERVED WITH DISTINCTION
The officer served with distinction in the British Army during the Great War as a member of the Royal Artillery. He was mentioned in dispatches and awarded the D.S.O. After the war he served with the British Army on special service in Poland.

Prior to the war he was stationed at Malta, Bombay, Aden and Hongkong at different periods. He retired from service in 1920.

SPEAKS ARABIC IN LEGISLATURE

Moslem Representative Addressed House at Manila — Sultan Joins Senate

By WALTER ROBB
(Copyright, 1931, by The Chicago Daily News Foreign Service)

MANILA, P.I., Aug. 4.—Today was Moslem Day in the Manila Legislature, where Datu Ibra, representing the farming and brassworking sedentary Moslems of Lanao Province, uttered in Arabic the first Moslem speech ever delivered before the House.

Though the Moslems exceed 1,000,000 among the island's 15,000,000 inhabitants, Christians always represented them until Governor-General Dwight F. Davis named Datu Ibra their representative and Sultan Jamalul Kiram their second Senator. An exception was Senator Hadjibutu, a mere dummy, whom Sultan Kiram succeeded.

Datu Ibra's speech indicates that Mr. Davis has given the Moslems competent representation. With classic simplicity and politeness he told the Christians and Leges that his niggardly policy toward Mindanao's Moslems was unbrotherly and kept that region backward.

SHOULD LIVE AS BROTHERS
"We should live as brothers in fact," Datu Ibra told the legislators. At his premier attendance in the Senate, Sultan Kiram signed the oath of office and allegiance to America, written in Arabic. He speaks Sul, Malay and Arabic, his secretary interpreting into English. The Sultan's words finally reaching the Senate in Spanish. His sea-roving subjects are neophyte farmers in localities where roads make settlements possible.

Today Sultan Kiram wore a grey business suit, a blue fez, a brilliant striped yellow and violet silk shirt, a darker violet cravat, pearl studs, and carried an ivory cane topped in gold and with pearls and rubies.

DISCARDS PUNKAS
When the Sultan was shown his office, he asked, "where is the servant?" "What is that?" he inquired. Observing the electric fan, he declared against punkas.

He sojourne at a hotel with a small retinue, but desires to lease a palace and live more naturally with fifty servants. From a filigreed gold box, the Sultan's secretary drew mace-headed quills of lime and betel nut, and the Sultan industriously chewed them during the session, while someone frantically fetched a spittoon.

Are Puzzled by
Disappearance
Of \$25,000 Cash

NEW YORK, Aug. 4.—Postal authorities are investigating the puzzling disappearance of a package containing \$25,000 in currency from a mail post delivered here by the Cunard line steamer, it was disclosed last night.
The currency, consigned to the

New York branch of the Royal Bank of Canada, was the only piece of mail missing from the pouch, which arrived here on June 8 from Nassau, Bahamas. Postal inspectors were of the opinion the theft occurred in Nassau.
Antiterror "hymns" were sung at the dedication recently by Miss Maude Royden of trees planted along a road near Watford, England, by the Green Cross Society, whose object is to beautify the new art-

OLD LAND HAS FINE SPIRIT

Victorian Pays Striking Tribute to Great Britain After Six Months' Visit

A striking tribute to the people of the Old Country for the cheerful and altruistic spirit which they are exhibiting in the face of the present economic crisis is paid by Mrs. Fred Robertson, of Rockland Avenue, who with her daughter, Miss Margot Robertson, has just returned to the city after a six months' visit in Scotland and England.

From the richest to the poorest of the people of Great Britain, with the exception, of course, of those groups of malcontents who were to be found in any country even in the best of times, were displaying a keen desire to relieve the country through the present depression. All people, she says, were doing their bit. While the wealthier classes were giving generously to relief funds and providing as many jobs as they could, the workers were also doing their share. In many of the big stores among the employees were continuing on as decreased wages or were taking their holidays without pay.

In order that business might be affected as little as possible, all the big social functions were being held at usual, the idea being that all this helped to stimulate trade and provide work for the unemployed.

THE DOLE
"We in Canada hear far too much about the dole," said Mrs. Robertson, who maintains that exaggerated publicity has been given to the exceptional instances in which abuses of the dole have been discovered. Too little was said, also, about the relatively good percentage of openings available to educated men in England. Compared with Canada, for instance, Great Britain seemed to be better able to provide her young university graduates with work, not perhaps at very high salaries, but nevertheless something which would keep them from joining the ranks of the unemployed.

She had found a very interesting contrast between the former in Canada, and more interested in South Africa, due, perhaps, to overmigration to this country and the consequent return to the Old Land of hundreds of disappointed people who had come to this part of the Empire with the hope of improving their estate.

WILLING TO ADJUST
"I think the people of the Old Land are exhibiting a splendid willingness to adjust themselves to the altered conditions; they accept things as they are, and while things are admittedly very serious, nearly everyone has a cheerful sense of responsibility and is willing to take on even heavier burdens if need be," it was stated. To meet the emergency even the better class firms like J. & J. London, which is another time held a sale only once a year, now put on sales every two or three weeks just to keep the stock moving.

Mrs. Robertson motored a great deal through England and Scotland, as well as crossing this continent twice since leaving here early in the year, and was much struck by the extensive road-building and water-development works which had been undertaken in Scotland, particularly to provide employment for thousands of men. The employees themselves recognized that this was emergency work, and were philosophically accepting the reduced wages offered.

Large enough to supply 3,000 portions, the world's greatest apple pie, recently made at Birmingham, England, was twelve feet long, ten feet wide, two feet deep and contained 450 pounds of apples, 150 pounds of flour, fifty pounds of lard and twenty-eight pounds of sugar.

ARTISTS INVITED TO SHOW WORK AT PROVINCIAL FAIR

The Island Arts and Crafts Society has been requested by G. Mearns, secretary of the Provincial Exhibition, to arrange and collect an exhibition of paintings for the forthcoming Provincial Exhibition to be held at the Willows Fair Grounds from August 31 to September 5 next. Members of the society and other artists are, therefore, requested to submit some of their best paintings to the committee, in whose hands they should be not later than the afternoon of Wednesday, August 19, addressed to the secretary of the Arts and Crafts Society, 201 Union Building, 612 View Street.

URGES GERMANY BE LEFT ALONE

Prominent Chicago Broker Believes Country Can Solve Own Problems

It would be better if politicians would keep out of commercial troubles, feeling with financial crisis in Germany, is the opinion of Walter S. Brewster, prominent Chicago broker, who arrived in Victoria Monday on vacation.

Referring to conditions in the United States, Mr. Brewster believed there has been a decided movement toward the depression in business, commercial and industrial, which had engulfed almost the entire world, but that the movement had been somewhat arrested by the crisis in Germany. Mr. Brewster, however, declined to comment on what effect the German situation might have on conditions in his country. He said he had been out of touch with business affairs for the past week.

"I might say I have a very optimistic feeling about the possibility of Germany being able to take care of the problem, and I might add that business men should be left alone to work out their own salvation," Mr. Brewster said.

BOMB EXPLOSION HERALDS STRIKE

Forty Thousand Cuban Workmen Decide to Go Out in Sympathy and Protest

HAVANA, Aug. 4 (AP).—The heralded twenty-four-hour strike, expected to involve 40,000 or more workmen affiliated with the Cuban National Labor Confederation, officially got under way at one minute past midnight today.

A bomb, set off by unknown persons at San Jose and Matanzas Streets, shortly before the zero hour, broke windows in nearby buildings and damaged the streets. There were no arrests.

Labor leaders said about thirty unions would take part in the strike, called in support of striking street car men, to protest imprisonment of women and Government restriction of meetings.

"I might say I have a very optimistic feeling about the possibility of Germany being able to take care of the problem, and I might add that business men should be left alone to work out their own salvation," Mr. Brewster said.

VARIETY FOR VACATIONIST

British Isles Provide Many Mediums for the Traveler's Entertainment

August is undoubtedly the supreme holiday month in Great Britain, and an examination of the British events slated during the next three or four weeks reveals a surprising diversion of attractions for Canadian tourists. Probably the most important among these is the military tattoo, which is taking place this week at Tidworth, on Salisbury Plain, familiar to thousands of Canadians. Each year the tattoo is the occasion for military spectacles of imposing proportions and this year a realistic historical episode will portray the Scottish romance of Bonnie Prince Charlie, in 1746. Tatting between the two of the Welsh regiments taking part. Thrilling high-speed evolutions by motor cycle dispatch riders and a symphonic display will complete the entertainment.

The 11th Hussars will assist and sixteen massed bands arrayed in pre-war full dress uniform will accompany the performance. The "mass" includes 1,000 instrumentalists, 150 horses, and not of least importance, two billy goats, the mascots of two of the Welsh regiments taking part. Thrilling high-speed evolutions by motor cycle dispatch riders and a symphonic display will complete the entertainment.

HIGHLAND GAMES
Other British events will include the Highland games at Bridge of Allan; lawn tennis between Harvard and Yale vs. Oxford and Cambridge, to take place at Eastbourne; there will be racing at Chesham; a dramatic festival of English drama from sixteenth century to modern times, in Malvern. Other high spots in the month include the Dublin Horse Show; the Welsh National Eisteddfod at Bangor, to attend which a large party of Canadians and Americans left recently on the Cunard Lancia; yachting at Felixstowe; a Highland gathering at Fort William; the Cowal Highland games at Dunoon; the International Tourist Trophy race at Silverstone. For sporting enthusiasts, the grouse shooting begins next week. During August there will be a Shakespeare dramatic festival at Stratford, while society will flock to Cowes to attend the Royal Regatta.

That Canadian and American tourists are responding to the unusual August programme in the Old Country, is testified by the advance bookings for Cunard sailings from Montreal during this month.

Audit Is Deferred

VANCOUVER, Aug. 4.—On request of the B.C. Electric Railway Company, an audit of the company's books by Helliwell, MacLachlan Company will be deferred until a further meeting is held with the City Council. This was decided at a meeting of the council when a letter from the auditing company stated that the company had asked for a delay. The audit was called for in view of negotiations to be concluded toward the end of this year for a three-year contract with respect to street car fares.

ORPHANAGE COMMITTEE ACKNOWLEDGES GIFTS

Reports received at the monthly meeting of the Ladies' Committee of the Orphanage Monday afternoon, showed that forty-six children were now in residence at the home, three having left during July.

The president of Mrs. Bingham, representing St. Mary's Church, was received with regret.
Mr. Joseph North had taken the children to see the fireworks on July 18, also to the Pageant. Cars and a treat had been provided each time.
Mrs. F. V. Longstaff and Mrs. Dorman were appointed visiting ladies for August.

The president, Mrs. C. R. Walker, occupied the chair and members present were: Madames Longstaff, E. M. Brown, Dorman, Dismore, Calvert, Raper, Cox, McKeown, Shepherd and Humphries.
The following donations to the home were acknowledged: Government House, cherries; Mrs. Raper, raspberries; Mrs. Shandley, jam; Mrs. W. Fraser, seventeen jars jam; Mrs. Currie, preserves; a friend, cherries; Mrs. Dillabough, magazines; Mrs. Shepherd, three toasters; Dr. Bryant, Dr. Gibson, The Colonist and The Times.

STREET FRAY IS REPORTED

Deportation of Foreigners Is Believed Under Consideration at Ottawa

Street disturbances occurring in Vancouver on Saturday and Sunday have been widely reported to the Federal Department of Justice, Ottawa, by the Attorney-General's Department, it was learned at the Legislative Buildings. Official notice was also taken of the fact that many of those taking part in the disturbances were of foreign birth, and that cowardly tactics had been resorted to by the mob in the stoning of mounted officers. Sunday, these officers retaliated by making free use of their whips, the department was advised.

Open clash with constituted authority was being seriously viewed in high official circles, and while members of the Government firmly declined to comment on the matter, it is known the fullest support of the Province will be placed behind Vancouver municipal officials in dealing with the situation.

STATUS OF FOREIGNERS

Meanwhile the status of foreigners in Canada who take part in street affairs is receiving close attention by the Dominion authorities at Ottawa. Under the Immigration Act, British Columbia has officially contended, anyone who breaks the peace and who is of foreign origin can be returned to the land of his birth without the necessity of prior criminal proceedings against him. Action in such cases would have to be taken by the Dominion immigration officials.

ALIVE TO SITUATION

As one indication that Ottawa is alive to the situation and prepared to deal with it firmly, the British Columbia Government was advised yesterday that Allen Llewellyn Campbell, alias William McEwan, recently sentenced in British Columbia courts to one year's imprisonment on each of two charges of inciting to riot and seditious conduct, had been paroled on July 16, to permit of his immediate return to Scotland. Campbell appealed his conviction, but lost on the reference to the British Columbia Court of Appeal.

Meanwhile, the recent utterances of Rt. Hon. R. B. Bennett, at Ottawa, on the question of law and order are being taken as another indication that the Dominion Government is fully alive to the situation and is prepared to act firmly in support of local authority.

PLAN FORBIDDEN PLATEAU MOVIES

Government Picture Men Are Leaving on Thursday to Film Area in Colors

Completing a series of color and black and white pictures of points of scenic and industrial interest on Vancouver Island, H. Cress, J. H. Boothe and Walter Hamilton are preparing to leave on Thursday morning for the Forbidden Plateau, where they will take a number of reels of color pictures for the Provincial Government.

The party has returned from three weeks at Up-Island points, including Campbell River, where pictures of logging operations were taken. Scenes around Cowichan, Mill Bay and portions of the Malahat Drive have been recorded. At Chemainus the operators filmed the big sawmill there, making a record of mill operations from the sawlog to the finished products.

"The work has been most interesting and the films which we are now making for both Provincial and Federal Governments will be shown in many countries of the world. Much scenic work is done in color and I believe those films will rank with the best ever produced. There is a wealth of beauty on Vancouver Island," Mr. Boothe said.

EXPECT HARD WORK
The party will continue filming parts of the Malahat Drive today, and have included Burchart's Gardens in the day's programme. Mr. Boothe and his associates are looking forward to the filming of the Forbidden Plateau, which, he declares, will not be an easy task because of the conditions prevailing there.

"We are taking in some very heavy equipment, and much of our success will depend on being able to transport the equipment to the desired places. However, we hope to secure some interesting pictures," Mr. Boothe said.

Believed to be the oldest ship afloat, the Success, the sole survivor of the old-time convict fleet which sailed between England and Australia and now is sailing around the world as a "side show."

A GREATER VICTORIA

Reeve James Elrick, of Esquimalt, has put forward the proposal for a Greater Victoria. It is not a new idea for it has been mooted from time to time during the past two decades, but its significance at present lies in the fact that it should be advocated by one of the heads of an outer municipality. Hitherto opposition to the scheme has come from Esquimalt, Oak Bay and those wards in the Saanich municipality which would, in the logical course of amalgamation, be incorporated in one municipality with Victoria.

It is wholly conceivable that an arrangement could be made whereby all concerned would benefit and no taxpayer would suffer by the creation of a Greater Victoria under one municipal government. It is a proposal well worthy of the most careful investigation. At present we have four municipalities with individual overhead expenses where one could suffice. There are continuous differences of opinion affecting fire protection, water supply and sewage facilities arising between those municipalities. There are conflicting interests which retard development and which could be ironed out were there only one responsible authority. As Reeve Elrick says, "every business is combining for its own benefit in these times and the occasion is ripe for Victoria and its municipalities to follow suit."

The old arguments against amalgamation have lost a good deal of their strength. One of the chief of these was that taxation in the outer municipalities was much lighter than in Victoria. The difference is by no means so great today as it was from ten to twenty years ago, for as their areas have been developed and more building has ensued the taxpayers of Oak Bay, Esquimalt and Saanich have found that they have to pay more and more for the privileges of progress. Some of the expenses of municipal growth could undoubtedly be forestalled under a scheme of municipal amalgamation, and the communities concerned would enjoy a greatly increased prestige.

The truth is that opposition to the scheme, however potent in the years gone by, has lost much of its effectiveness because of the manner in which conditions have developed. Reeve Elrick has shown both courage and vision in bringing the project forward at this time. The example of Vancouver in combining with adjacent municipalities is one which Victoria could follow with profit not only to itself but to all those who would participate in the scheme. It is a matter of self-determination for the municipalities concerned. They could not be expected, however, to determine wisely and well unless all the facts of the situation are laid before them. To attain this end a Greater Victoria committee should be organized to examine the project in all its bearings and to prepare such proposals as could be submitted to a referendum in the various municipalities. A well devised plan could be ready for submission at the year-end municipal elections.

BRITISH POLITICS

The British Labor Party won 289 seats out of 615 in the House of Commons at the general election of May, 1929. Today that party, because of defeats at by-elections, has 280 seats. In thirty-one by-elections that Labor has contested it has polled 105,675 fewer votes than it did in the case of the same constituencies in the general election. The Liberal Party has contested fourteen seats and has shown a loss of 54,211 votes in these. Conservatives have fought thirty-one seats and have experienced a loss of only 7,464 votes.

Relatively speaking, the Conservatives have been the greatest gainers. This is especially the case in the by-elections of the present year. Since January 1 the Labor Party in sixteen by-elections has lost 51,577 votes; the Liberals contesting eight seats have lost 40,514 votes, and the Conservatives in seventeen by-elections have gained 8,444 votes as compared with what they polled in the same constituencies in the general election. There is no doubt as to the trend of political thought in Great Britain. Most political prophets are agreed that as matters stand Mr. Stanley Baldwin would sweep the country in a general election.

WAR CASUALTIES

A British medical history of the war has been prepared by the Government. It reveals that the total casualties suffered by the British Empire were 11,096,338. Of these 1,965,646 were incurred by the Dominions. It is shown that the year of the heaviest casualties was 1918, the year when the final thrusts were made against the German lines along most of the battlefield in France and Flanders. In that year there were 624,488 casualties in battle and 1,184,904 from other causes. The non-battle casualties outnumbered those incurred in the firing line, being 6,185,787 during the progress of the war.

It is recorded in the medical report that 8,654,000 men were mobilized for service, not counting the Royal Navy and the merchant marine. In dealing with wounds sustained the record shows that 58.51 per cent of these were inflicted by shells and trench mortars, 38.98 per cent by bullets and only 3.2 per cent by bayonet. The latter figures are not absolutely accurate. They were obtained by examining the record of 212,000 casualties in clearing stations. Of the non-battle casualties, in 1,043,053 cases, 111,923 were due to digestive tract diseases, 94,989 to influenza and 33,902 to malaria.

WANE OF AMATEUR MUSICIANS

Sir Landon Ronald, the well known conductor, ascribes the wane of the amateur musician not only to the practice of listening in, but, as well, because people have learned to prefer dancing, bridge-playing and motion pictures to listening to music performed in their homes. He asks

why has the gentle art of making music either for oneself or in the drawing-room practically disappeared? He answers his question by saying: that perhaps we hear too much music. Then he goes on to say:

"If you go to lunch, to dinner or to supper at a restaurant you find a band playing all the time. If you go down the river, you hear on all sides of you gramophones or wireless sets shrieking out the latest horror in jazz. At the seaside brass bands will play for you from 11 to 1 and 3 to 5 whether you want them or not. I am afraid quite honestly that people are soon sick of hearing music all round them, no matter where they go, that once they arrive home they thank God for a respite from something that has become an intolerable nuisance. And the worst of it is, that all the time they are listening to the wrong kind of music, and it is that very fact which accounts for their tiring of it. The more you hear great music the more you get to love it. Play or sing a composition of, say, Chopin or Schumann a hundred times over, and you will always find something new, something beautiful in it. Can anyone honestly say that about the present-day dance music?"

REFORESTATION

La Presse of Montreal draws attention to the active campaign being carried on by the Government of Quebec in its policy of reforestation. Regions cleared by fire and by the axe, as well as agricultural land that has been abandoned, have been selected and again last Spring, as in preceding years, millions of young saplings have been planted. No part of Canada is doing the same work as Quebec in this particular, and Quebec will reap admirable results in the years that lie ahead. Its Government has planned a steady and persistent reforestation scheme, one such as should be in progress throughout the Dominion, and particularly in British Columbia, where our forests are suffering heavily through fire and insect pests. It is estimated that another fifteen years will see an actual shortage of some types of wood in this province. Our reforestation campaign should not only be in progress but gathering momentum all the time. This is one phase of provincial insurance for the future in which Quebec, and Ontario to a lesser degree, is giving an admirable example to all parts of the Dominion.

Bubbling drinking fountains were devised to supply cool and pure water to everyone. They were supposed to be the most sanitary drinking arrangement that could be provided, but now the Women's Bureau of the Department of Labor at Washington, D.C., comes forward to say that most of these drinking fountains do not come within sanitary regulations and are subject to contamination. This appears to apply particularly to the vertical jet type of fountain which has not emerged well from bacteriological tests.

WISHING

I wish I were back again
To see the hilltops after rain
Clear-cut against a cloudless sky:
To watch the full tide sweeping by:
To sail at sunset and behold
The path before a blaze of gold;
To see the bloom of twilight creep
On little turrets half asleep,
Where lamp-lit windows, sparkling by spark
Jewel the velvet of the dark.

My mind is full of memories
Of lovely moments such as these,
And for the North my heart is fair—
I wish that I were back again!
—Elizabeth Fleming in The Glasgow Herald.

PARENTHOOD TO ABILITY

The greatest asset in the world is character. It is the parenthood to ability. Without character ability is a greater danger than mediocrity or even stupidity. The rocks of failure are strewn with the wreckage of ability and even genius, because character, their parenthood, was not strong enough to keep them in the temple of life.—London Daily Express.

LONGING

Today, my heart's an aching pain
For England and its gentle peace,
I even want the smoke and rain,
The dull lit fires that never cease.

I crave the warmth and smile of folk,
Friends, trusted, understanding all,
Dear, cherished memories have awoke,
And torturing, poignant—call and call.

Oh, yes! I know there's beauty here,
Sunshine, blue sea, and colored foam,
And, maybe, love and friends to cheer,
But, heart and soul I long for home.

—Anthony James in The Melbourne Argus.

The greatest gift a hero leaves his race is to have been a hero.—George Eliot.

The Weather

Meteorological Office, Victoria, B.C., at 8 p.m., August 4, 1931.

SYNOPSIS
The barometer remains high on the Coast and fine weather is general on the Pacific Slope. Showers have occurred in Northern Alberta and Saskatchewan.

Letters to the Editor

No letter to the Editor will be inserted except over the proper signature and address of the writer. This rule admits of no exception.

THE TOURIST TRADE

Sir.—Our city has now for several years spent in the neighborhood of \$200,000 annually for publicity purposes in order to attract tourists and their trade. This expenditure is beginning to bear fruit on an increasing scale, a fact easily proven by statistical figures.

Some of this business is undoubtedly lost by the Wednesday half-holiday. This measure was introduced as a compensation to the personnel of general stores which stay open late on Saturday, and as such, should not be begrudged. Local residents who need articles of utility can obtain them during the week-end. There are, however, several stores of peculiar interest to tourists. So far as I know, no definite ruling has ever been made with regard to these, and five or six have ventured to trade on Wednesday afternoons in a half-hearted manner. It seems to me that these stores, which do not compete with local and general merchandising, might well be permitted to remain open on Wednesdays, provided that they do not take advantage of the presence of tourists and accommodate souvenir hunting visitors. The latter have expressed their desire for an appointment to me at having to leave Victoria early in the morning.

The Chamber of Commerce has been asked to make a statement on several times, but its views remain as yet uncertain. I think that a more definite ruling regarding these stores should be obtained by the chamber and that the Chamber of Commerce should be asked to make a statement on the promotion of trade and the interests of merchants before the tourist season closes.

S. SANDERS.
811 Government Street, Victoria, B.C., August 3, 1931.

TOFINO CONSERVATIVES

Sir.—The attention of the Tofino Conservative Association has been drawn to an announcement in your issue of July 24, which intimates that the Tofino association has been absorbed by the Clayoquot District Conservative Association.

In the temporary absence of the secretary, I am writing to you to inform you that the above statement is entirely untrue, and that as far as our knowledge goes, the Tofino association is still in existence and is of official existence of any organization known as the "Tofino and Clayoquot District Conservative Association." We understand that a meeting was recently held by a few local residents, certain alleged political grievances, but the Tofino Conservative Association, which is affiliated with the Alberni Central Conservative Association, and which has been in existence for a number of years, is the only official Conservative organization in Tofino, and no other requires nor intends reorganizing.

In order to rectify any misunderstandings which may have arisen, the insertion of the letter in your valuable paper would be much appreciated.

JAMES MOORE.
Member Executive Committee,
Tofino Conservative Association,
Tofino, B.C., July 31, 1931.

MENACE OF DOLE SYSTEM

Sir.—Owing to readers of The Colonist often stating that the "dole" papers are more interesting because they print more news, I venture to ask if it is possible to confine this column to a number of words that would insure them about one third of a column, as there are numerous letters in Tofino, and no other requires nor intends reorganizing.

Lengthy Biblical quotations ever promising reward for honesty, seem unnecessary when we maintain every form of church, and only the millions spent in education, these individuals should aim to live honestly and uphold the law of the Bible not for reward, but because they become a better human type and make a better nation.

In reference to F. W. I. Moore's letter of Sunday last, the insertion of a column and a half of bewildering statements and quotations. His query, "Are we quite sure of our system of private ownership, individual enterprise, employment and unemployment, Government dole, marriage and divorce laws, and beyond hope of improvement, the very best desirable?"

Endorsing British traditions gathered from the Bible, the Tofino Conservative Association, which has been in existence for a number of years, is the only official Conservative organization in Tofino, and no other requires nor intends reorganizing.

1126 View Street, Victoria, B.C., August 3, 1931.

FLOWERS FOR SOLARIUM

Sir.—Each Sunday since May 18, we have visited our little sun at the Solarium, taking flowers that I have collected in the market on Saturday, about 5 p.m. WEATHER REPORTS

how happy they are and see the pleasure given to the staff also by the flowers.

The gift flowers vary as they are what remain unused, but I have had an eternal each time.

Dr. Wace extends his thanks also, and consented to this letter being sent to your valued paper and also the enclosed from Miss Stone, lady superintendent. B. J. SMITH.
1702 Douglas Street, Victoria, B.C., August 3, 1931.

"Dear Mr. Smith:

"Just a note to ask you, on behalf of the children, the Soldiers, if you will very kindly accept, and convey to the various ladies at the Market who so kindly send the flowers to me, most sincere and hearty thanks and gratitude for this gift. The flowers are exceedingly nice, they make the wards look so merry and bright. The children love them."

"I think it is exceedingly kind of you all to do this for us, and we appreciate it most highly."

"Yours very truly,"

"R. F. STONE,
"Lady Superintendent."

BANK DEPOSITS

Sir.—I desire to call attention to one important feature of the present depression, i.e. that bank deposits are accumulating to an unprecedented extent. The explanation is that neither the depositors nor the bankers feel secure in loaning or investing the money. Until the sense of insecurity is overcome the business depression will continue. Remove the sense of insecurity and capital will be invested, business will tend to become normal and unemployment will greatly diminish.

As an emergency measure to meet the present grave crisis which menaces the welfare and security of the state, the Government should require the banks to extend normal credit up to, say 75 per cent of the savings deposits and guarantee the depositors and the banks against the sense of security, enable business men to increase their activities and their payrolls, absorb unemployment and secure value for money spent.

Several bank managers have recently assured me that they seldom lose money on small business loans and the chances of the Government having to make good on its guarantee is very remote. Certain it is that the course I suggest would cost less than unemployment relief schemes, would be productive of more work of national value, would extend benefit to a far greater number of the self-respect of the individual and the security of the state.

My attention has been called to cases where bank managers have felt compelled to call loans backed by ample collateral and to force the sale of the latter on a disorganized security market. This needless, disastrous, manufacture of the centre bankruptcy should cease in the national interest. The Government should require the banks to save the industrial machine from irreparable injury and insure them against loss in discharging a national duty.

E. S. WOODWARD,
1225 Carlin Street, Victoria, B.C., August 4, 1931.

The Rhyming Optimist

By Aline Michaels

A PEARL

It lay within its satin nest,
Of all Earth's gems the loveliest.
And many, passing, looking thereon,
And though how like this dawn it shone,
And, "Ah!" men said, "Where will
To grace a hand as white as snow,
Or on an ivory throat to rest,
Like rose-petal to petal prest?"

Heard the lady love,
This pearl, unchanged where it might rove,
For always, fairer than the day,
By her own lips she chafed away;
Until at last, by some mischance,
It fell where fountain waters dance,
Thence to a gutter's filthy swill;
But still a pearl, a matchless pearl!

Coast Man Presides

At Prairie Convention

WINNIPEG, Aug. 4 (CP).—Delegates to the nineteenth annual convention of the Canadian Pharmacological Association arrived in Winnipeg today for the opening of the meeting. The men attending represent the nine provinces in the Dominion and will confer here for three days.

LIGHT VALUE AS CURATIVE AGENT

Dr. William Newton, Pathologist, Tells Kiwanians Its Relation to Disease

Relation of light to disease, a study on which the entire scientific world is at present centering its attention because of the amazing results that have been obtained from the knowledge already gained, was the subject of an address by Dr. William Newton, plant pathologist of the Dominion Experimental Station at Sidney, to the members of the Kiwanis Club at luncheon yesterday, at the Empress Hotel.

Although a scientific subject, Dr. Newton was able to present it in an unusually interesting form by the use of lay terms in explaining the various peculiarities, or characteristics, of light when broken up and used in exciting substances of unusual use which are affected by light rays.

DESCRIBES LIGHTS

Dr. Newton described the various known lights, those visible to the eye and those of short vibration or wave lengths, not visible because they have no effect on the eye itself. In this last classification is the ultra-violet light or ray, which is being generously used by the medical profession in the cure or inhibition of disease.

Explaining the effects of light on plant life, Dr. Newton produced a plant of sage plant to show the structure of the plant. The sage, like other plants, develops a peculiar trait according to its environment. Placed in the light, the structure of the plant leaf is designed to reflect strong rays of the sun. Because of that trait, Dr. Newton said, the leaves have a thick covering of white material. White reflects light, but not too much, and so nature has provided white in the leaf to reflect the quantity not required for the normal existence of the plant.

FUNCTION OF LEAF

The opposite, he said, occurs in the case of the tiny violet, found growing in the shade of trees. The light here is also caught by the leaves, and absorbed, and therefore, if the leaf of the violet is closely examined it will be found dull, or darker in color than the sage. These leaves do not reflect the light, because light is needed to give sustenance to the plant.

As an example, he instanced an orchard of fruit trees. Trees that have a thick covering of leaves on the outer fringe will not produce an abundant crop. The leaves, being closely set, prevent the light rays from penetrating into the centre branches. Yellow leaves, he said, indicated a parasitic condition in that the branch was not able to support itself and was a drain on other parts of the tree and should be removed.

WEDNESDAY SPECIALS

Preserving Apricots, last shipment. Per box.	\$1.45

JOHN MCGOVERN WILL GO TO JAIL

Prefers Twenty Days to Paying Fine for Offence on Glasgow Green

GLASGOW, Scotland, Aug. 4 (AP).—John McGovern, Member of Parliament, and eight other persons were fined \$2 each with an alternative of twenty days imprisonment today for preaching on the Glasgow Green without permits.

The magistrate directed that they be allowed ten days in which to pay, but Mr. McGovern said "I don't want time to pay, I will go to prison."

Some time ago Mr. McGovern was ejected from the House of Commons during unprecedented disorders when he raised the question of allowing lay preachers to speak on Glasgow Green.

After today's sentence Mr. McGovern declared he intended to "continue the campaign for free speech" and when the courtroom had been cleared a group of men and women went to the Green, where several meetings were held without permits.

In announcing his decision, the magistrate declared that if the public forum were used indiscriminately and without control it would defeat the purpose for which the Green exists.

TEST WELLS OF TURNER VALLEY

Government Starts Work of Closing Down for Regulation of Gas Flow

CALGARY, Aug. 4.—Government officials commenced closing down Turner Valley wells Tuesday morning for pressure and production tests to determine a basis of regulation by companies under the new regulations limiting gas flow to 100,000,000 cubic feet per day.

Wells in the southern end were closed in successfully but pressure, steadily increasing, was approaching the danger point at some places. Homestead presented the greatest danger of damage to casing, casing head or derrick. Some independents declared they would not permit Government officials on their leases until the latter had signed papers assuming responsibility for all damages. Others declared that neither Government officials nor their leases to this effect, the Government would be held responsible.

Closing down of wells for twenty-four-hour tests will continue during the balance of the week.

Gladioli Display To Aid Memorial

A magnificent display of more than two hundred varieties of gladioli will be shown at the Orde Memorial Hall, Church of Our Lord, tomorrow afternoon, from 2 to 6 o'clock. The flowers have been grown by G. S. McTavish, Breed's Crossed, Sidney, who has donated them for the occasion, to be sold for the benefit of the Orde Memorial Hall. Afternoon tea will be served by the ladies of the church and there will be someone on hand to give the names of the various varieties.

NEXT ALPINE CAMP CHOSEN

Mount Assiniboine to Be Climbed at Next Gathering of Alpinists

By ARTHUR O. WHEELER

The day of the annual meeting of the Alpine Club of Canada broke bright and sunny. A sharp frost at night added zip to the mountain ozone. All parties at outlying camps had been called in, and the population of the big camp was early on the move, gay swaters and scarves adding a kaleidoscopic shifting of colors to a landscape already brilliant with white tents and many-colored bunting. It was a busy morning with executive and committee meetings, and with the preparation of the biggest campfire programme of the whole season.

The annual meeting was held under the big fly. The president, H. E. Sampson, K.C., of Regina, in an excellent address, reviewed the year of the club's activities in a most optimistic strain. He referred to the club's policy of climbing but construction of the mountain regions, and mentioned the huts now in commission: the Fay Hut in Prospector Valley, used in conjunction with the present camp; the Elizabeth Parker Hut, near Lake O'Hara, also used by the camp, and the Memorial Hut, in the Tonquin Valley, near Jasper. A party of members are occupying this last named hut for two weeks of climbing in the Tonquin Valley at the close of the main camp, under the leadership of C. G. Waters, F.R.S.E., chairman of the Edmonton section of the club.

Edmonton Struck By Severe Storm

EDMONTON, Aug. 4.—One of the most severe storms of the year struck the Edmonton district Monday night. At Manville, buildings were unroofed and in some cases stripped from their foundations. Considerable hail damage was reported in Wetaskiwin, Ponoka, and Manville areas. At Edmonton, 120 inches of rain fell in ten hours.

Came to Demonstrate, And Now Go to Jail

VANCOUVER, Aug. 4.—Alleged to have arrived in Vancouver from Winnipeg Friday to take part in the Communist demonstration here Saturday, Aro Finn, Carl Ladien and Yuko Valahin were sentenced to three months' imprisonment when they pleaded guilty to vagrancy charges before Magistrate H. C. Shaw in police court today.

Officers told the court the three men had declared shortly after their arrest Friday that they had accompanied about seventy other men to Vancouver in order to take part in Saturday's demonstration. When arrested, the convicted men are slated to have been in possession of Red flags, and of insignia of affiliation with Communism.

That Body of Yours

By James W. Barton, M.D.

PROTECTING YOURSELF AND YOUR PHYSICIAN

Perhaps you wonder why your physician wants you to undergo an X-ray examination after an injury?

Well, in the southern end there is no bone broken.

He does this because he feels that after all he is only human and that he may be making a mistake.

Lately, also, in cases where a doctor is sued for malpractice, the first question a judge will ask is whether or not an X-ray examination was made. The physician may explain that he didn't want to put the patient to this expense, but this does not excuse him. If the physician suggests the X-ray examination and the patient says he will, the physician is not responsible for the expense of the X-ray examination, this excuses the physician to some extent but not entirely.

The result is now that in most bone and joint injuries the physician protects the patient and himself by having an X-ray of the part.

Just to show you how far this idea of protection of patient and physician is progressing may be seen where a French court has rendered a decision on another type of case.

As you know, tetanus (lockjaw) does occur after wounds or cuts, and if the serum is not used in time death in a distressing form usually follows.

Formerly the serum was used when the first symptoms of lockjaw appeared, but lately in hospital and general practice where a wound is very dirty, and there is a feeling that all the dirt has not been removed, it is the custom to give a dose of this antitetanic serum any time.

In this particular case a young man engaged in work with metals met with a grave accident in the factory in which he was employed, whereby a deep wound was produced. He died a few days later from (tetanus) lockjaw. The family sued the physician because he had not used the serum the day the accident occurred.

The judge decided that the doctor was fifty per cent to blame for not using the serum. He would have been entirely to blame if cases of tetanus had been more common in the region.

I'm not commenting on this case; I'm only trying to show you that when the doctor wants you to undergo an X-ray, a blood test, an injection of any preventive serum, it is really for your own protection and his own.

And the principal reason, unfortunately, that he doesn't always insist on these further examinations, is because he wishes to save you the expense of them.

You've never heard before, At ye sign of ye camp fire at 8 p.m.

Probably the comedy, put on by Allan Walker and company, of O'Grady, was the outstanding one. It was entitled, "A Protest From Hungabee." A band of members, dressed in red robes and carrying torches, filed into the fire circle, led by the big chief, Hungabee (H. W. Allan). A circle was formed and some music played on a cadence. The old chief, then, through an interpreter (R. J. Cuthbertson, of Shunavon, Sask.), protested against the invasion of white men into the realm of the great mountain, Hungabee, for which the chief was named. Finally, after much protest, he was pacified by a gift of tobacco, and the pipe of peace was smoked. All were clever, and the impromptu set-up and acting startlingly realistic.

MANY ALIENS REGISTERED

Special Consideration May Be Asked by Province for Added Burdens

By ARTHUR O. WHEELER

Returns for the first eight days of registration under the Provincial Immigration Act, local to the province, reported to Hon. R. W. Bruhn, Minister of Works, yesterday, were slightly in excess of 4,000, including 1,000 from the United States, and 3,000 from other countries.

While members of the Government are not yet in a position to say, it is considered probable that representations will be made to Ottawa asking special consideration in its treatment of British Columbia in the light of the influx of non-British residents, and also recognition of the fact that many of the Dominion's own citizens have moved to the coast from other provinces, and are now seeking assistance here.

DISCUSS CAMPS

In a meeting yesterday, the unemployment committee of the Cabinet, comprised of Hon. W. A. Mackenzie, Minister of Public Works, and Hon. B. L. Howe, Provincial Secretary, considered final preparations for the starting of highway camps as previously outlined.

Recommendations as to the scale of allowances to be provided at the camps will be made by the committee to the Cabinet today. It is understood that Cabinet approval is received, members of the committee declined to say what these allowances would be.

OFFICIALS CONSULTED

Hon. J. W. Jones, Minister of Finance, was called into consultation by the committee at its meeting, as well as officials of the Works, Labor and Provincial Secretary's departments.

Meanwhile word from Ottawa as to what means of assistance will be placed at the disposal of the Province, was being momentarily expected by the Government. Until the whole field of radio transmission is covered by Marconi, domestic receiving sets, transmission equipment for broadcasting stations, short-wave sending and receiving sets for forestry, ship to shore telephony, as well as the building and operating of world-wide wireless stations and ships' equipment.

"Television is quite definitely with us—we are regularly sending pictures, advertisements and documents by radio from Montreal and London," said Mr. Brophy. "The instruments are amazingly accurate, but they are a long way from being commercially practical for general office or home use is concerned."

We do not regard television as of immediate interest, and have concentrated our work on making Marconi receivers more and more reliable. Our engineers have been so successful that for the first time in radio we are able to say "Full-time reliability."

"We know that the new Marconi receivers will give day in and day out service such as radio fans have always hoped for. Naturally we have had to be secretive about our developments, but I am now showing you new models and sales plans to our dealers, and their enthusiasm is most gratifying."

Snap to Business Says Marconi Head

R. M. Brophy, Sales Manager, Now Visiting Coast—Visitor Over Week-End With L. S. Hawkins, B.C. Superintendent of Marconi Co.

"There is a snap to business today that has been missing for nearly two years, and I believe we are definitely on the up grade once more," said R. M. Brophy, sales manager of the Marconi Company, who is visiting the Coast on a transatlantic tour to study merchandising conditions.

Mr. Brophy was accompanied by the week-end with Mr. L. S. Hawkins, B.C. Superintendent of the Canadian Marconi Co., with headquarters at Vancouver.

The business of the Canadian Marconi Company is varied and widespread, he states. Practically the whole field of radio transmission is covered by Marconi; domestic receiving sets, transmission equipment for broadcasting stations, short-wave sending and receiving sets for forestry, ship to shore telephony, as well as the building and operating of world-wide wireless stations and ships' equipment.

"Television is quite definitely with us—we are regularly sending pictures, advertisements and documents by radio from Montreal and London," said Mr. Brophy. "The instruments are amazingly accurate, but they are a long way from being commercially practical for general office or home use is concerned."

We do not regard television as of immediate interest, and have concentrated our work on making Marconi receivers more and more reliable. Our engineers have been so successful that for the first time in radio we are able to say "Full-time reliability."

"We know that the new Marconi receivers will give day in and day out service such as radio fans have always hoped for. Naturally we have had to be secretive about our developments, but I am now showing you new models and sales plans to our dealers, and their enthusiasm is most gratifying."

City and District

Bush Fire—Two bush fires were extinguished by the fire department yesterday. One was at the corner of Philpott and Main Streets, and the other was a beach and bush fire at the foot of Oliver Street, Oak Bay.

To View Buildings—A tour of the three new high schools now under construction will be made today by the Sancho School Board. Members will meet at the Cedar Hill School at 1:30 p.m., and inspect the progress of the work.

Registrations—Complete registration of the unemployed in Saanich is nearing an end. It was indicated at Royal Oak yesterday. The number of daily registrations have been declining steadily. Only twelve men registered yesterday, bringing the total to 424.

School Board Meets—The Saanich School Board will hold its regular business meeting at Royal Oak at 8 o'clock tonight. Matters arising from a tour of the schools early today will be taken up. Apart from this, there is no outstanding business on the agenda.

Discontinue Ball—Acting on a suggestion from the board of directors, the Kiwanis Club has decided to discontinue for this year at least the annual ball and banquet, and to devote the evening to regular luncheon meeting yesterday.

Kiwanis Officers Here—James Neal, of Olympia, Wash., vice-president of the Kiwanis International association, accompanied by George McCullough, Vancouver, and H. Ellis, of Watonsville, Clatsop county, arrived in the Victoria Kiwanis Club luncheon yesterday. Mr. Neal is in the city in connection with the convention which opens at Tacoma, August 16.

To Issue Warrant—When Fene Ruffin, otherwise known as Pina Bernick, Government Street, failed to appear in the city police court yesterday morning on summons to appear to a charge of selling spirituous liquor contrary to the Liquor Control Act, City Prosecutor C. L. Harrison asked that a bench warrant be issued for his arrest. C. J. Prior, acting magistrate in the absence of Magistrate George Jay on vacation, consented.

Seeking Objectives—Members of the Kiwanis Club were urged by President Donald McEldie, at the luncheon yesterday at the Victoria Kiwanis Club luncheon, to seek in suggestions of objectives that the club might take up for the welfare of the community. A special committee has been named by the directors, headed by C. E. Wood Watkins, to whom suggestions may be sent, it was stated by the president.

Hikers Enjoy Outing—St. Michael's Y.P.A. recently entered the St. Columba Branch on a trip to the Astrophysical Observatory. Cars were taken to the gates and the hikers then proceeded on foot. Harry Plaskett gave a talk on the working of the telescope and was heard with the greatest interest. Later in the evening the hikers enjoyed an al fresco meal before starting on their return home.

Given Remand—Chan Yew, charged with distributing narcotics following his arrest by Sergeant Black of the Royal Canadian Mounted Police, appeared in city police court yesterday morning and, at the request of City Prosecutor C. L. Harrison, was remanded to Monday morning. Yew will appear on Monday with Han Lim, who is held on a charge of having drugs in his possession.

New Principal—Eric Foster has been appointed principal of the North Saanich High School at Sidney, it was announced yesterday. Mr. Foster, who was formerly vice-principal of the Alberni District High School, is a native of Saanich. Mr. Foster is visiting Victoria for two weeks as the guest of Mrs. R. Tanner, "Perndale," Fernwood Road.

Students Enroll—Registration of students who plan to attend high school this coming September will start today, it was announced by Robert Bryden, secretary of the Saanich School Board, yesterday. Making a total of 126 persons placed under canvas, an attendance far beyond the expectation, clearly demonstrating that even if the times are depressed the need of revitalization in the great out of doors is as strong as ever.

C.P.R. REPRESENTATIVE

L. K. Kelle, publicity agent of the Canadian Pacific Railway at Chicago, came into camp yesterday. Mr. Kelle, the general publicity agent. He was greatly impressed by the strenuous activities of the camp and the magnificent scenery of the alpine surroundings.

Additional members who have graduated to active membership are Misses Evelyn K. Gee, Vancouver; Mrs. Hay, Victoria; Muriel M. Grata, Banff; Joyce Packer, Calgary; and Catherine P. S. Hendrie, of Arr. Scotland. R. H. Hickey, T. L. Wright and P. S. Mapp, of Calgary, and Dr. and Mrs. Duncan Graham, of Toronto.

At the great camp fire, when practically the full attention of the camp was present, a most excellent programme was enjoyed. Instructional talks were given by H. C. Jenkins of the Alpine Club, England, on "The Technique of Mountain Climbing," also by Dr. A. J. Gilmore, of New York, on the same subject, and by H. S. Kingman, of Minneapolis, on "Climbing in the Canadian Rockies."

A very humorous account of the famous two-day round trip was given by S. E. Brown, of Montreal, and an account of the 1920 camp at Mount Assiniboine by Miss H. M. Smith, of Brooklyn, N.Y.

COMEDIES ARE PRESENTED

A number of comedies were staged, among which "Mrs. Brown, Brought Back," led by Miss Catherine Hendrie, of Arr. Scotland, and "The Prairie Pirates" stood out prominently. The last staged by Andrew S. Sibbald, of Saskatoon, led off as follows:

"Young folks and old folks, Everybody come, Join the jaded audience, And make yourself at home, Bring along tobacco, And sit upon the floor, You'll hear some pirate anecdotes"

City and District

Boy Injured—G. Gould, of 2730 Shelbourne Street, yesterday reported to police that his five-year-old son was struck down by an automobile driven by M. E. Prevett, of Hyacinth Avenue. The accident occurred when Mr. Gould was alighting from a bus on Shelbourne Street. The boy saw his father and was crossing the road to meet him when the accident happened. The child was taken to the Jubilee Hospital suffering from internal injuries.

Embargo Considered—Importation of Eastern Canadian faxes into British Columbia from areas exposed to the serious epidemic of diphtheria said to be prevalent in some sections, may be banned in this province, if present proposals laid before the Government are carried out. A measure which is taking up the matter direct with Ottawa, asking advice as to the situation, and action, if this is found necessary, to prevent a spread of the disease among British Columbia fur farms.

Accidental Death—The death of Private Edmond L. P. Hogan, of the P.P.O.L.I., by electrocution at a disused quarry near Tod Inlet, was accidental, according to a verdict brought in by a coroner's jury at the inquest held yesterday. Private Hogan was found on the roof of a building of the Government's business, which was used as a sun bath, when his wire came in contact with the wire, which carried a 2,300-volt current.

Proclamation Issued—Published in an atmosphere of habitual calm and dignity, as the official record of the Government's business over week to week, The British Columbia Gazette produced one of the few "extras" in its history on Sunday last, when the first proclamation by Hon. J. W. F. Johnson, new Lieutenant-Governor, was printed in due form, and issued as the first official business of the Government.

Island Goats Go East—Under the direction of the Livestock Branch of the Federal Government, twelve fine bred Saanen does, from the herd of Col. J. M. Bryant, Salt Spring Island, and three purebred Saanen bucks, from Thomas Pearce's herd, of Victoria, have been shipped to Nova Scotia. The action of the livestock branch of the Government in arranging special shipment to overseas high express rates, has solved a great difficulty experienced by island breeders in marketing their animals in the Eastern section of Canada. British Columbia goats are known throughout the Dominion for their high milking qualities.

Want Women Inspectors—In view of the two vacancies in the inspectorate of the public schools of British Columbia, the Victoria Business and Professional Women's Club has passed a resolution urging the Department of Education to give consideration to women in making the appointments. The club, in enunciating its stand, points out that there are at least two women available in British Columbia and eminently suited, both by their ability and scholastic qualifications, to fill the post of inspector. The resolution, which was passed unanimously, will be forwarded to other women's organizations for endorsement.

Bridge Delegation Heard—Proposing plans for construction of a new bridge across the Fraser River, between Port Mann and Barnston, a delegation of Fraser River Bridge Company officials waited on the Cabinet yesterday, seeking Provincial co-operation as to arrangements with the Canadian National Railway. The Canadian National Railway now uses the New Westminster Bridge, but could be released from this obligation by the Government, it was contended. W. C. Dumas, W. G. Swan, J. A. Collins, and A. O. Desbriay, counsel, composed the delegation. The Cabinet promised consideration of the representations.

Quashes Conviction—Judge J. C. McIntosh, in County Court here yesterday, quashed a conviction by Police Magistrate George Jay in the appeal of a young man, who in the city police court was fined \$200 and costs or three months for giving beer to a girl under the age of twenty. The appeal has been pending for several months and since that time the young man and the girl have married. His Honor reversed the magistrate's decision on the grounds that it had not been proven beyond doubt that a partly filled bottle of beer in the automobile was the one from which the girl had been drinking. The alleged offence occurred near Beacon Hill Park, it was stated, in March, 1929. Stuart Henderson appeared for the appellant, and C. L. Harrison for the Crown.

Beacon Hill Concert—The Canadian Scottish Band will give the sixth concert of the series presented by the 1st Battalion, Canadian Scottish Regiment, in Beacon Hill Park tonight, commencing at 8 o'clock. A programme of light and semi-classical numbers as follows: March, "Under the Flag of Victory" (Von Blon); selection, "High Jinks" (Hartley-Freeman); value, "For Value" (Ancliffe); intermezzo, "Demolition Club" (Fletcher); value caprice, "Bal Masque" (Fletcher); overture, "Morning, Noon and Night" (Suppe); "A Musical Jig-saw" (arranged by Aston); intermezzo (a) "Forget Me Not" (Macbeth); (b) "La Secret" (Gautier); selection, "The Persian Market" (Ketteibey); and selection, "Songs of the Old Folks" (arranged by Lake).

ON BAIL OF \$10,000

VANCOUVER, Aug. 4.—Max Herdley, alleged leader of last Saturday's Communist demonstration, was released today on bail bonds of \$10,000. Herdley, charged with inciting to riot and assaulting a police officer, appeared in police court Monday and was remanded to August 10.

Hubby Jones—I see that Whiteham, who died the other day, left his wife half a million. How would you like to be his widow?

Wife Jones—Now, dear, you know I would rather be yours.

NEGROES GAINING BY U.S. CENSUS

Two-Thirds of Increase in the North-Slight Loss in Whites Rate

WASHINGTON, D.C., Aug. 4 (AP).—Racial classification of the United States population was announced today by the Census Bureau, showing marked "in" in negro growth rate and a slight loss in white growth rate.

During the last decade, the negroes increased by 13.6 per cent as compared with 8.1 per cent in the ten years previous.

The white race increased by 14.8 per cent as compared with 16 per cent the decade before.

The Census Bureau said the decline obviously was due to the restriction of immigration.

Nearly two-thirds of the entire negro increase took place in the north, and the Census Bureau assumed that large numbers of Southern negroes migrated northward.

Raid on Quarters Of Soviet Company Blow to Red Plans

Correspondent Describes Intimate Details of Bolshevik Scheme to Start Revolutions in South American Countries—Drastic Steps Taken When Necessary to Halt Propaganda

By JOHN W. WHITE
(Copyright, 1931, by The Chicago Daily News Service)

MONTEVIDEO, Uruguay, Aug. 3.—The raiding of the Yuyamontg (the Soviet Trading Company in Buenos Aires) by Argentine police is the severest blow to the Soviets' plan for worldwide revolution since the British police raided Arcos House in London several years ago.

The Yuyamontg has been the centre of Soviet political activities in South America. It sent agitators to stir up trouble in Brazil, Uruguay, Paraguay, Chile and Bolivia, and cleverly used its commercial activities to create political unrest.

Boris Kraevsky, who founded the Yuyamontg as the Argentine branch of the Amtorg Trading Corporation Company, of New York, is one of the most astute plotters the Soviets ever sent abroad. It was he who negotiated Uruguay's diplomatic recognition of the Soviet Union several years ago.

MORE IMPORTANT WORK
When he explained to The Chicago Daily News correspondent at that time the Soviet's plan to send an ambassador to Uruguay, he asked him why he was not appointed ambassador as a reward for the success of his negotiations. He replied, "perhaps they think my work here more important than that of an ambassador."

The Argentine Embassy in London had refused Mr. Kraevsky's passport for Argentina. He went to New York and worked with the Amtorg and obtained an Argentine visa busy in Rio Grande do Sul just before the outbreak of the Brazilian revolution, but revolutionary leaders deported them. As soon as the revolution was victorious in Rio Janeiro, Mr. Kraevsky took the first steamer to Rio, but the Brazilian authorities forbade him to come ashore and he continued to Europe.

WAS KEPT MOVING
Mr. Kraevsky's trip to Europe was unintentional. His agitators were busy in Rio Grande do Sul just before the outbreak of the Brazilian revolution, but revolutionary leaders deported them. As soon as the revolution was victorious in Rio Janeiro, Mr. Kraevsky took the first steamer to Rio, but the Brazilian authorities forbade him to come ashore and he continued to Europe.

Communist agitators, led by agents from Buenos Aires, were troublesome in Rio Janeiro during the early days following the victorious entry of the revolutionary army and the Provisional Government stood them against the walls and shot them without trial as fast as they were arrested. The military censor at Rio Janeiro told The Chicago Daily News that more than 170 Communist agitators were thus shot there.

The Paraguayan secret police identified several of Mr. Kraevsky's agents among agitators sent to Asuncion a few years ago to organize a Communist demonstration against the American Legation there.

WIDESPREAD SYSTEM
Argentine newspapers at one time reported that 2,000 professional agitators were attached to the Yuyamontg in Buenos Aires. Most of them entered Argentina from Uruguay. The Soviet authorities appear not to have taken the Uruguayan report.

SPANISH STREETS RENAMED
Historical names of streets in Spain are being replaced by more modern and republican ones. At a recent session of the municipal council of Toledo the Mayor described Carlos V as an "indecent ruffian," and the council, mostly Socialists, ordered a name reminiscent of the conqueror of Toledo to be replaced by the name of a Spanish politician. The Avenue of Maria Christina has been renamed Juan Jaures. The Street of the Catholic Kings will be known as the Commune of Castille. The picturesque corner known as the Palace Arch, adjoining the Archbishop's Palace, will be known as Karl Marx Square.

Children Had Eczema Very Badly. Lost Sleep. Healed by Cuticura.

"My two little girls had eczema very badly. It was on their hands and faces and itched and burned terribly, causing them to scratch. When they scratched the affected parts used to bleed. It caused several nights' loss of sleep."

"I tried several remedies without success. I began using Cuticura Soap and Ointment and they helped the children, and after using about six cakes of Cuticura Soap and three boxes of Cuticura Ointment they were completely healed." (Signed) Mrs. Wm. Preston, Marchbanks, N. B.

(3) An original model from Worth of brown Alaska sealskin, which will be featured among the fur coats this Autumn.

BLAME DEER FOR ANTHRAX SPREAD

Disease Breaks Out Among Horses on Highway Construction on Manitoba Border

WINNIPEG, Aug. 4 (CP).—Ten miles of country between Rennie, Man., and Ingolf, Ont., has been barred to the public because of a virulent epidemic of anthrax. The highly contagious disease has broken out among the horses engaged in highway construction and has claimed the lives of sixteen animals.

The Manitoba Government has warned all persons to remain out of the area affected by the disease, which is believed to have originated among the deer in the region. The disease is thought to be spread by bites from horse flies and deer flies. Three deer have been found dead. Anti-anthrax serum is being rushed by airplane to Winnipeg from Minneapolis, New York and Kansas City.

The disease broke out in a camp on the easterly section of the Transcanada Highway, near Rennie, Man., where the sixteen horses died. The camp has been placed under quarantine.

Died From Eating Pills for Candy

REGINA, Aug. 4.—Discovery of what she thought to be a box of candy proved fatal for twenty-one-month-old Jennie Fournier of Regina, Sask. The "candies" were medicinal pills, and after eating twenty of them Jennie was found by her mother violently ill. She died before medical aid could be summoned.

GERMANY'S BANKS

BERLIN, Aug. 4 (AP).—The German Government has decided to place all banks under Government control. It was authoritatively learned today.

The girl chum says that her mentally sketchy friend had at last bought a book, to make use of a pair of book-ends which someone gave her.

German Banks Will Resume Full Business

BERLIN, Aug. 4 (AP).—After a bank "holiday" extending over three weeks and one day, enforced by a decree by President Paul von Hindenburg, German institutions prepared today to reopen their doors for regular public business tomorrow.

Restrictions, especially on checking accounts, have been severe during these three weeks. The limits on withdrawals permitted were those for officially approved purposes such as payrolls and tax bills.

The situation, in the opinion of banking experts, has greatly improved, and it was believed the banking machinery could be put in motion again without fear of causing runs.

Winter Fashions Introduce Modes Of Last Century

By ADELAIDE KERR

PARIS, Aug. 4 (AP).—Time rolled backward three-quarters of a century in the style works today, as one of the leading couturiers presented the 1833 mode based on the frills and frumpiness of the frivolous '30's and the sophisticated '60's.

Romantic little hat plumes sweeping to the shoulder, tippet napes and the flounced skirts of Queen Victoria's day were the latest contributions to the style battle raging between the old-fashioned and the modern mode protagonists.

Green, in all shades, including grass, sage, and bottle, was the outstanding color favorite. Black marocain afternoon frocks designed with twelve-inch flounces at the hip and hem lines and lower sleeves with dainty white chiffon frills were worn with tiny black hats no bigger than a pancake, ornamented with uncurled ostrich swirling over the shoulder.

Evening gowns of flame or gentian blue chiffon were designed, with fitted hips and flaring skirts and given a billowing fullness near the hem by means of crinoline stiffening.

SECRETARY OF STATE ILL

OTTAWA, Aug. 4 (CP).—Hon. C. H. Cahan, Secretary of State, entered the Ottawa Civic Hospital late today for treatment for stomach trouble. Mr. Cahan will probably be confined for four or five days.

Beggar—Spare a copper, sir, I was a prisoner for nine years.

Gentleman—But the war didn't last nine years.

I was not in the war, sir.

Reports that the source of the hoof-and-mouth epidemic in Ulster was oats imported from Russia are being investigated by Northern Ireland officials.

"How did you find your uncle, John?"

"In apple pie order."

"How is that?"

"Crusty."

Commercial fisheries are of the opinion that the fish business of the Canadian prairies is still in its infancy. They see a great future for the business with the coming of better transportation facilities. Railways are now being built farther North in the Prairie Provinces, and they will tap the fish districts, aiding a growing industry which brings whitefish, tulliboo, pickerel, grayling, trout and sturgeon to the tables of the prairies and the mid-western states of the United States.

Donations of all kinds, especially vegetables delivered to the rooms and men's clothing, will be greatly appreciated as men going out to the camps are in great need of clothing.

A new industry has arisen in the three central provinces of Canada which because of their wheat growing facilities have been called the granary of the British Empire. Commercial fishing is an established industry, reaching north as far as Lake Athabasca. On the shores of this lake nearly 1,000 miles distant from Winnipeg and some 1,700 miles from Chicago are factories where whitefish and trout are caught in large numbers to be frozen, packed in special wrappers, boxed and shipped by refrigerator barges down the Athabasca River to Watways, the end of steel, 200 miles distant to the South.

FRIENDLY HELP SUBMITS REPORT

Statement for July Shows Acceptable Contributions Made to Necessity—Association Thanks Donors

The president, Mrs. Margaret Cullum, presided at a well-attended meeting of the Friendly Help Association yesterday morning, when eighteen members were present with Aldermen Robert Smith and James Adam representing the City Council. Alderman Smith was welcomed as a new member of the board.

Miss G. McLeod, general secretary of the Y.W.C.A., attended the meeting to discuss provision being made for unemployed women, none having been made by the Citizens' Unemployed Relief Fund Committee. The meeting appointed a committee to attend a meeting to discuss this matter.

New applicants for relief were reported coming in daily and all wanting work so that they might carry on without help from any source.

MANY ARE ASSISTED

Reports showed that 278 families representing 1,032 persons, received assistance during July; 692 grocery orders, 523 meat orders, ten coal orders and sixty-eight wood orders were issued; ninety-one families received milk daily; ten men got new shoes, 103 families received clothing, ninety-one families got provisions from the rooms, such as jam, eggs, vegetables, soap, etc.; eight families received sundry articles, such as dishes, sewing machine, beds and furniture, curtains, grip, cane, etc. Clothing was given to thirty-one women, nine of whom were from Spanish. Clothing only was issued to 103 men, five of whom were from Spanish, and 100 got new trousers.

TO HOLD MARDI GRAS

A Mardi Gras Day will be held on August 19, at Langford Lakeside. Bathing, a beauty contest, swimming sports, vaudeville and dancing will be on the programme, and part of the proceeds will be donated to the Friendly Help Association.

Grateful thanks were expressed to Dr. William Russell and Dr. W. F. Fraser for dental work. Also to the Canadian National Institute for the Blind for glasses supplied.

Donations of all kinds, especially vegetables delivered to the rooms and men's clothing, will be greatly appreciated as men going out to the camps are in great need of clothing.

Reports that the source of the hoof-and-mouth epidemic in Ulster was oats imported from Russia are being investigated by Northern Ireland officials.

"How did you find your uncle, John?"

"In apple pie order."

"How is that?"

"Crusty."

"FIVE AND TEN"
TO OPEN TODAY

Fannie Hurst Novel Is Dominant
Presentation for Three Days—
Stars Marion Davies

The Fannie Hurst best-seller, "Five and Ten," serves as the latest starring vehicle for Marion Davies, which opens today at the Dominion Theatre.

It will be a decided change to see Miss Davies in the role of the Fannie Hurst heroine who is a far cry from the light comedy types usually portrayed by the Metro-Goldwyn-Mayer actress. The many who have read the story will recall that it is an intensely serious account of the attempt of the family of a five-and-ten-cent store baron to achieve happiness despite the barriers of New York social snobishness.

This is believed to be Miss Davies' most ambitious picture, and report is, no expense was spared in equipping it with lavishly backgrounds.

COLISEUM The many lovers of THEATRE British pictures in Victoria will be delighted at the new English farce, "Lord Richard in the Pantry," now showing at the Coliseum Theatre, and which contains a cast of many new stars famous on the London stage. They will hear some of the wittiest

AMUSEMENTS

On the Screen

Capitol—"Annabelle's Affairs," starring Jeanette MacDonald, Coliseum—Richard Cooper in "Lord Richard in the Pantry," Columbia—"Raffles," starring Ronald Colman, Dominion—Marion Davies in "Five and Ten," Playhouse—"Men Call It Love," featuring Lella Hyams.

lines and crisp dialogue yet heard in an English picture. Richard Cooper, as Lord Richard, gives a bright and snappy performance and is strongly supported by Dorothy Seacombe. The photography, recordings and settings are the best yet seen in British pictures, and shows the great advance the Old Country is making in this direction.

COLUMBIA Ronald Colman as "Raffles," cavorts at his adventures in a stirring photoplay showing at the Columbia Theatre today for the last time. Samuel Goldwyn presents this United Artists picture as a successor to "Building a Drummond," in which the famous English star perpetrates his allegiance to detective thrillers. "Raffles" is Colman's third successive criminal talking film.

PLAYHOUSE—Lella Hyams, who plays the wife in "Men Call It Love," showing at the Playhouse Theatre for the last time today, was born in New York, the daughter of vaudeville-headliner parents. She was on the stage since childhood and began her picture career in 1928. She last played in "Way for a Sailor" and "Gentleman's Fate."

CAPITOL The screen at the Capitol Theatre has seldom enjoyed a better entertainment than that provided by "Annabelle's Affairs," the Fox attraction currently a success at that popular amusement place. It is a comedy with smart and witty dialogue, laugh-provoking situations and good drama that makes the plot an interesting climax. Victor McLaglen and Jeanette MacDonald portray the leading roles.

CULBERTSON on CONTRACT

by Ely Culbertson

World's Champion Player and Greatest Card Analyst

THE FORCING SYSTEM DEFINED

There are three characteristic features that sharply distinguish the Approach Forcing System in Contract from other systems. They are:

First: The use as first choice of the approach suit bid in the very preference to No Trumps.

Second: The use of the forcing two bid for the opening bidder and of forcing takeouts for either partner.

Third: The use of the direct method in preference to Ace-showing for slam bidding.

The Approach Method: When a hand offers a choice between an opening trump bid and a No Trump, the suit, be it even a four-card minor and not the No Trump, should as a rule be bid first.

This principle applies with hands containing singletons as well as with those containing unprotected two or three-card suits.

This apparently simple principle is of even greater importance in Contract than in Auction and carries with it as a consequence some radical changes in the bidding methods of both partners.

For instance, a four-card suit headed as low as an A 7 10, A 8 9 or K Q 9 or five-card suits headed by a K or Q J, are bid freely and increase tremendously the game-making or game-saving range of hands.

The requirements for adequate trump support is in turn made higher than usual: Three small trumps or a Queen small is not considered "adequate support."

Partner should try to deny such support with some other trump or takeout with No Trumps, unless the first suit is rebid.

Another important consequence of the approach principle is that the responding hand takes out weaker hands than in other systems.

In the vital question of choice between two biddable suits, the most decided preference is given in the forcing system to the longer suit.

Forcing Bids: The principle of forcing bids, which gave the name to the system in Contract, is not new, but a logical extension of the approach principle and other methods already developed for Auction.

In Contract where a game or slam must be contracted for in order to score it, there are two situations which require that the bidding be kept unconditionally open by partner.

First situation: Opening trump bids of two are forcing. Such a bid is a gigantic approach bid and shows about five honor tricks distributed in three suits. Partner's response are: (1) must not pass; (2) cannot raise the bid suit unless holding at least three trumps to an honor and one honor trick; (3) falling trump support can bid some other five-card suit, if headed by at least a Q J and one honor trick.

Second situation: Opening trump bids of two are forcing. Such a bid is a gigantic approach bid and shows about five honor tricks distributed in three suits. Partner's response are: (1) must not pass; (2) cannot raise the bid suit unless holding at least three trumps to an honor and one honor trick; (3) falling trump support can bid some other five-card suit, if headed by at least a Q J and one honor trick.

Today's Pointer

A small slam should be bid on a hand which offers a slightly better than even chance of making the response are: (1) must not pass; (2) cannot raise the bid suit unless holding at least three trumps to an honor and one honor trick; (3) falling trump support can bid some other five-card suit, if headed by at least a Q J and one honor trick.

Grand slams should be bid rarely and only when the hand offers at least a three to one expectancy of fulfillment.

Today's Pointer

A small slam should be bid on a hand which offers a slightly better than even chance of making the response are: (1) must not pass; (2) cannot raise the bid suit unless holding at least three trumps to an honor and one honor trick; (3) falling trump support can bid some other five-card suit, if headed by at least a Q J and one honor trick.

Grand slams should be bid rarely and only when the hand offers at least a three to one expectancy of fulfillment.

LOCAL DOUBLES TEAM REACHES P.N.W. FINAL

McCallum, Corfield To Meet U.S. Aces For Honors Today

Strong Victoria Pair Advances to Last Bracket After Great Victories—Will Oppose Nordstrom and Scott—Neer and Dranga Reach Finals of Sectional Singles

Favorites Move Up in B.C. Tourney

Mel Dranga, Seattle, and Henry Neer, of Portland, won the right to meet for the Pacific Northwest sectional singles championship as the result of their victories in the semi-finals, played yesterday, in conjunction with the British Columbia tournament, now in progress at the Victoria Lawn Tennis Club. Dranga defeated Henry Prusoff, also of Seattle, in a sensational five-set duel, 6-3, 2-6, 6-1, 1-6, 7-5, while Neer advanced with a straight-set victory over Commander Edwards, Victoria, 6-1, 6-4, 6-2.

The finals of the sectional doubles were also reached with McCallum and Corfield, Victoria, and Nordstrom, Seattle, and Scott, Tacoma, reaching the final bracket. The Victorians advanced with two fine victories, putting out McVeagh and Hockley, Portland, and Rosenberg and Rostgaard, Tacoma, in four-set matches. Nordstrom and Scott eliminated Neer and May, Portland, and then disposed of Prusoff and McDonald, Seattle.

In the men's and women's British Columbia singles events, favorites continued to show form and moved into the next rounds with mostly straight-set victories.

SENSATIONAL DUEL
The feature of the day's play was the great battle put up by Dranga and Prusoff. This match went to five sets, and only three of the games went to deuce. Some of the greatest volleys and serving seen here for some time, was produced by the players. Dranga was readier than the flashy Prusoff, and it was this factor that gave him victory. The first four sets changed hands by somewhat one-sided scores, but the last was nip-and-tuck through-out, with the pair tied at five-all. Dranga took the next set and was leading in the seventh, 40-0, when Prusoff pulled off some sensational tennis to force it into deuce. His erratic work following him, however, lost him the set and match, at 7-5.

Commander Edwards was not up to his usual form against Neer, who played a strong game. The Portland leader took the first set easily, but was extended to the limit in the second. Neer never looked in danger in the third set, which he won, 6-3.

LOCAL DOUBLES TEAM WINS
McCallum and Corfield raced over the courts to two brilliant victories in reaching the finals in the doubles. Against McVeagh and Hockley they were forced to fifty-nine games, winning the last three sets, 6-3, 11-9, 11-9, after dropping the first, 6-4, in their match against Rosenberg and Rostgaard, the local pair took the first two sets, 6-4, 6-3; lost the third, 6-4, then came back with some great team work to take the fourth, 6-1.

Nordstrom and Scott were forced to the limit to win from Neer and May in their second match of the day, 6-3, 12-10, 3-6, 6-3, but found Prusoff and McDonald easier in the next and won out in straight sets, 6-3, 6-2, 6-2.

The sectional singles final will start today at 1 p.m. and the doubles final at 3 p.m.

One of the best men's open singles matches was produced when Dranga, Seattle, eliminated Rob Johnson, Portland, 6-2, 4-6, 6-0. Another hard three-set duel was fought out between Hugo Bergman, Green, defeated R. Robertson, 7-5, 6-3.

the former winning out, 6-3, 2-6, 6-4. Mason gave his one-armed opponent plenty of trouble through-out.

MURDO ADVANCES

John Murdo, San Francisco Hawaiian and seeded No. 1, advanced by default over Lloyd Nordstrom, Seattle. Merle Moore, Arizona State champion, won from Gerald Cunningham in straight sets, while Joe Oughlin, San Francisco, eliminated Don Lewis, Portland, 6-2, 6-0. Henry Neer, Portland, found little opposition from Tommy Forbes and won, 6-1, 6-1. Wally Martin, Tacoma; Ronnie Kirkbride, Vancouver; Laurason Driscoll, San Francisco; D. M. Gordon and Don Campbell were the others to move into the next round.

All the seeded players in the women's singles moved up without the loss of a set. Vess O'Shea, Vancouver, put up a game fight against Edith Cross, San Francisco, seeded No. 1, and took four games, but the Californian was never in danger and won out, 6-2, 6-1. Marjorie Leeming, local star, walked through Joan List, Vancouver, 6-0, 6-1, while Olive Wade, Toronto, had little difficulty in disposing of Miss Kitchin, 6-1, 6-1. Mrs. Dorothy Perow, San Francisco, also advanced with a 6-2, 6-2 win over Peggy Henry, Los Angeles. Mary Campbell defeated Maxine Ewart, 6-1, 6-1, and Mrs. Edwards downed Helen Campbell, 6-2, 6-2. M. Noble, of Malay States; Marie McNab, Vancouver; Jane Sharp, Pasadena, and Miss Burritt, Toronto, were the other winners, the latter downing Miss Currie, strong Halifax player, after a hard match, 6-4, 6-4.

THE RESULTS
The results follow:
P.N.W. Sectionals
Mel Dranga, Seattle, defeated H. Prusoff, Seattle, 6-3, 2-6, 6-1, 1-6, 7-5.
H. Neer, Portland, defeated J. C. I. Edwards, Victoria, 6-1, 6-4, 6-3.
Nordstrom and Scott, Tacoma, defeated H. Neer and May, Portland, 6-3, 12-10, 3-6, 6-3.
Prusoff and McDonald, Seattle, defeated Lewis and Johnson, Portland, 6-3, 7-9, 6-2, 6-1.
Nordstrom and Scott defeated Prusoff and McDonald, 6-3, 6-2, 6-2.
Rosenberg and Rostgaard, Tacoma, defeated McLean and Wilkes, Vancouver, 6-3, 8-6, 5-7, 8-6.
McCallum and Corfield, Victoria, defeated McVeagh and Hockley, Portland, 6-4, 6-3, 11-9, 11-9.
McCallum and Corfield defeated Rosenberg and Rostgaard, 6-4, 6-3, 4-6, 6-1.

Men's Singles
W. Martin defeated G. W. Phillips, 6-1, 6-0.
R. Kirkbride defeated Homey Armstrong, 6-2, 6-1.
L. Driscoll defeated C. Hockley, 6-1, 6-0.

Mel Dranga defeated Bob Johnson, 6-2, 4-6, 6-0.
J. C. I. Edwards defeated W. G. Rawlins, 6-1, 6-2.
George Green defeated R. Robertson, 7-5, 6-3.

Slattery and Rosenbloom to Battle Tonight

NEW YORK, Aug. 4.—Whatever the training faults of Maple Rosenbloom, boxing gift to the night clubs, it cannot be said the clowning king of the light-heavyweights was picking his spots when he signed to meet Jimmy Slattery, the Buffalo mixer, in tomorrow night's fifteen-round go at Ebbets Field. Slattery evidently intends to make the supreme effort to tomorrow night. Like Rosenbloom, he never has been famous for the time he spent in training, but he has worked long and hard this time. Current odds have the champion a 5-to-6 choice.

J. Murdo defeated L. Nordstrom, w.o.
W. Scott defeated E. Leoney, 6-0, 6-2.

Merle Moore defeated Gerald Cunningham, 6-2, 6-2.

J. Oughlin defeated Don Lewis, 6-2, 6-0.

D. M. Gordon defeated D. Williams, 6-4, 6-4.

G. H. Raymond defeated H. T. Mason, 6-3, 2-6, 6-4.

H. Neer defeated T. Forbes, 6-1, 6-1.

J. D. Campbell defeated Rostgaard, 6-1, 6-1.

Women's Singles
Edith Cross defeated Vess O'Shea, 6-2, 6-1.

M. Noble defeated Patsy Henry, 6-1, 6-0.

Marie McNab defeated Miss Priestly, w.o.

Mrs. Woodbury defeated Mrs. McVeagh, 6-2, 6-1.

Miss Jane Sharp defeated Miss M. Phillips, 6-1, 6-1.

Miss M. Campbell defeated Maxine Ewart, 6-1, 6-1.

Olive Wade defeated Miss Kitchin, 6-1, 6-1.

Mrs. Perow defeated Peggy Henry, 6-2, 6-2.

Mrs. Edwards defeated Helen Campbell, 6-2, 6-2.

Miss Burritt defeated Miss Currie, 6-1, 6-1.

Marjorie Leeming defeated Joan List, 6-0, 6-1.

Men's Doubles
Garrett and Cunningham defeated Burton Murphy and Ian Phillips, 6-0, 6-2.

Moore and Rosenberg defeated Blidbeck and Gray, 6-1, 6-2.

Mason and Robertson defeated Witter and Hurn, 6-4, 6-7.

Edwards and Campbell defeated Moorehouse and Meredith, 6-2, 6-0.

May and Neer defeated Green and Coughlin, 3-6, 6-3, 6-3.

Nordstrom and Scott defeated Jones and Forbes, 6-0, 6-0.

Johnstone and Williams defeated De Sals and J. G. Brown, w.o.

Mario and Lewis defeated King and Christie, 6-2, 6-0.

Women's Doubles
Mrs. Perow and Miss Cross defeated Misses M. and I. Benson, 6-0, 6-1.

Mrs. Edwards and Miss May Campbell defeated Mrs. McVeagh and Miss Postlethwaite, 6-8, 6-0.

Mrs. L. Ross and Miss V. O'Shea defeated Mrs. Woodbury and Miss Currie, 6-1, 6-3.

Miss Wade and Miss Burritt defeated Mrs. Leeming and Miss Morrow, w.o.

Mixed Doubles
Patsy Henry and LaFell defeated Jean Campbell and Merston, 4-6, 6-3, 6-4.

Edith Cross and Driscoll defeated Joan List and Giles, 6-0, 6-1.

Vess O'Shea and Brown defeated M. G. Harris and Moorehouse, 6-1, 6-2.

Olive Wade and Martin defeated Mrs. Leeming and Brown, 6-0, 6-0.

Audrey Tremayne and Wilt defeated Miss Burritt and Forbes, 3-6, 6-4, 7-5.

Mrs. R. B. Wilson and Green defeated Mrs. Woodbury and E. Slater, 6-3, 6-4.

Miss Swayne and Curran defeated Veda Rithet and J. P. Phillips, 6-3, 6-2.

Miss Leeming and Edwards defeated Miss Currie and Hockley, w.o.

Miss McNab and Kirkbride defeated Misses M. and I. Benson, 6-2, 6-4.

Miss Helen Campbell and Schwengers defeated Miss Welch and Ian Phillips, 6-1, 6-2.

TODAY'S DRAW
The draw for today follows:
R.C. Championships
10 a.m.—Prusoff vs. McVeagh, W. Martin vs. H. Neer, Kirkbride vs. Driscoll, Green vs. Murdo, W. Scott vs. Merle Moore, J. Oughlin vs. Gordon, Miss J. Sharp vs. Miss Mary Campbell, Miss Wade vs. Miss Helen Campbell and Schwengers, Miss Welch and Ian Phillips, 6-1, 6-2.

11 a.m.—J. D. Campbell vs. Mel Dranga, C. H. Raymond vs. winner of Prusoff vs. McVeagh, Marie McNab vs. Mrs. Woodbury, Corfield and Leoney vs. Kirkbride and Schwengers, Mr. and Mrs. McVeagh vs. Jane Sharp and Lewis, Patsy Henry and E. May vs. Mrs. Ross and Williams, Peggy Henry and LaFell vs. Mrs. Edwards and McCallum, Miss Goodland vs. Jean Campbell, Miss H. Meyers vs. Mrs. Sharp, Miss Postlethwaite vs. Miss D. O'Shea, Miss V. Rithet vs. Miss J. Murray.

4 p.m.—Second round, consolation singles.
8 p.m.—Mrs. Perow and Miss Cross vs. Misses Jean and Helen Campbell, Mrs. Ross and Miss V. O'Shea vs. Mrs. Sharp and Miss Ryan, Miss D. Swayne and Curran vs. winner of Miss P. Henry and May vs. Mrs. Ross and Williams, Mrs. McVeagh and Chambers vs. Miss Phillips and Rosenberg, Ryall and Garrett vs. Peden and Howland, Brown and De Sals vs. Remington and Holmes, Blidbeck and Gray vs. Meredith and Lockley, Christie vs. Giles, E. Slater vs. J. P. Phillips, A. D. King vs. J. Phillips, Miss M. Benson vs. Miss D. Morley.
6 p.m.—Edwards and Campbell vs. Merston and Fleet, Nordstrom and Scott vs. Johnston and Williams, Miss McNab and Kirkbride vs. winner of Miss Cross and Driscoll vs. Miss V. O'Shea and Brown, Miss G. Coughlin vs. Miss I. Benson, Mrs. D. Swayne vs. Miss C. Welch, R. Mathews vs. R. Schwengers, Scott Mason vs. winner of Meredith vs. J. Brown.

U.S. PICKS NET STARS FOR MATCH

Tennis Squad to Represent America in Wightman Series Selected

TWO NEW PLAYERS GAIN POSITIONS

By HERBERT W. BARKER
Associated Press Sports Writer.

NEW YORK, Aug. 4 (AP).—The United States Lawn Tennis Association has decided to pin its hopes for an American victory in the Wightman Cup matches at Forest Hills Friday on six players, evenly split between the West and the East.

Mrs. Hazel Hotchkiss Wightman, of Boston, will lead the team, the other members of which will be Helen Wills Moody, of San Francisco; Helen Jacobs, of Berkeley, Cal.; Mrs. Lawrence A. Harper, of Oakland, Cal.; Marjorie Morrill, of Dedham, Mass.; and Mrs. Marion Kinderstein Jessup, of Wilmington, Del.

Through a strange combination of circumstances only two members are represented on the national ranking list, prepared on the basis of play in 1930. Mrs. Harper is the No. 1 ranked player and Miss Morrill the No. 2, but none of the others appear on the list of the thirty-two leading women stars.

The answer, of course, lies in the fact that Mrs. Moody played in the last year's Wightman Cup, and Mrs. Harper is the No. 1 ranked player, but none of the others appear on the list of the thirty-two leading women stars.

Prizes will be awarded for the lowest gross card, best net and hidden holes. With the clubs sending their best to the layout, some fine divot digging is expected before the cupholder is declared.

The teams follow:
J. B. Dierston (R), R. W. MacKenzie (K), Art Christopher (G), F. George Hay (G), Vic Manton (K), Alex Straith (G).

J. A. Crana (R), Harry Stuart (K), Dick Wilson (G), Jack Trolan (K), O. Mackay (R), Vic King (K), R. L. Chaloner (G).

Bill Wilson (R), Ross Johnson (K), Ed Revercomb (G), R. Kingham (R), Ernie Foot (K), Bert Silbald (G).

Cliff Denham (R), Herb Stevens (K), Roy Darvill (G), Fred McGrover (K), H. Beatty (R), Fred McGrover (K), Waldo Skillings (G).

Norman Rant (R), Darrel Spence (K), Bill Hudson (G), Alex Straith (K), H. MacLachlan (R), Bill Hummerstone (K), Walter Fletcher (G).

F. H. Blashfield (R), Harold Hinton (K), Joe Greer (G).

R. W. Mayhew (R), Jack Trotter (K), Tommy Bowden (G).

P. B. Scurrah (R), E. D. Leclaire (K), Stan Moore (G).

Jim Fletcher (R), Ernie Eve (K), Alf Dowell (G).

T. E. Yull (R), Art Dowell (K), Bill Healey (G).

John Johnson (R), Bill Loney (K), S. J. Chiversall (G).

J. A. Craig (R), Tom Kelway (K), M. A. Kent (G).

R. R. Clert (R), A. O. Buckley (K), J. Sherratt (G).

J. R. Angus (R), Alex McKiernan (K), Frank Timmins (G).

W. S. Terry (R), E. W. Francis (K), Bev Gilson (G).

Key follows: (R), Rotary; (K), Kiwanis; (G), Gyro.

Three Vancouver Crews to Compete At Kelowna Meet

VANCOUVER, Aug. 4 (CP).—Red and white, colors of the Vancouver Rowing Club, will be well represented at the annual Kelowna regatta, August 12 and 13, when the interior's best rowers and swimmers compete with Coast stars.

Two four-oared crews and a double will be sent to the Okanagan from the Vancouver Rowing Club. Junior fours, women's fours and the sculling team of Bob Jagard and Howard Carter will represent the Coast in the regatta.

Losses in grain speculation have financially embarrassed many firms in Harbin, Manchuria.

EAGLES OUSTED FROM PLAY-OFFS

Drop Verdict to Fords by 11-5 Score to Fade From Picture in Twilight Loop

Eagles were knocked out of the Twilight Baseball League play-offs last night at the Royal Athletic Park, dropping an 11-5 verdict to the Fords. The feathered tribe gave their pitcher, Art Carr, tagged support, while the mechanics played good ball behind the hurling of the veteran Doc Todd.

Thursday evening the Automotives and Fords will clash in the next fixture and the first round of the play-offs will start on Tuesday evening.

Both squads will have their strongest line-ups on the field and a good battle is expected.

Carr pitched a losing battle for the feathered tribe as his teammates threw him down in the next inning. He struck out eleven and only issued two free tickets, while Todd fanned seven and walked three.

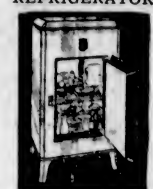

Moore had a good evening with the willow, getting two doubles, while P. Hughes clouted the only triple of the game.

MIDGET WOLGAST WINS

JERSEY CITY, Aug. 4 (AP).—Midget Wolgast, recognized as flyweight champion to New York and Pennsylvania, won a rough and tumble battle in ten rounds from Johnny Brennan, of Trenton, here tonight. Wolgast's title was not at stake.

WASHINGTON
STATE OPENSeattle Professional Leads
Field by Four Strokes
to Capture Title**PURSEY FINISHES**
IN SECOND PLACE

BROADMOOR GOLF CLUB, SEATTLE, Aug. 4 (AP).—Plugging along steadily while his competitors were showing flashes of brilliance on some rounds and then going to pieces on others, Frank Rodia, Seattle professional, captured the Washington State open golf championship today for the second time.

Rodia finished the two-day seventy-two-hole grind with a total of 284, four over par. His four and a half on the last round left him in third place.

The diminutive pro who was competing on his home course, took the lead by two strokes yesterday and he widened the advantage today. He was victorious in the open tournament of 1929, and also won the 1931 Washington professional crown.

PURSEY SECOND

Walter Pursey, Seattle pro, nosed out Francis H. I. Brown, Honolulu amateur, for second place with a dazzling 68 on the last eighteen holes. Pursey was four strokes behind Rodia with 288, while Brown carded 290 to win the low amateur prize.

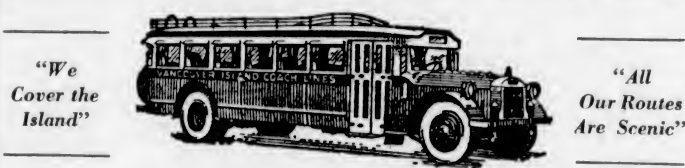

The long-driving Honolulu star had two great rounds, scoring 68 yesterday afternoon and 69 this morning, but a 79 on his opening 18 holes and a 74 on the last round left him in third place.

Bill Miller, Spokane; Eldred Zimmerman and Neil Christian, Portland; Willie Price, Olympia, and Bert Wilde, Bellingham, defending champion, were the others in the money. Miller tallied 294, Zimmerman and Christian 298 each, Price 296 and Wilde 297. Benny Cook, Vancouver, B.C., was outside the prize list with 151-78-76-305.

TENNIS SQUADS
ARE DEADLOCKED

Knox, First United and Metropolitan Tied for First Place in Loop Standing

Knox and First United teams defeated Cedar Hill and Christ Church, respectively, Saturday, by scores of 10-6 and 15-1. These clubs are now bracketed in first place with Metropolitan. A victory for the Mete against Cedar Hill in their remaining match will give them the championship, otherwise play-offs.

Vancouver Island Coach Lines, Ltd.**Holiday Hints**

For the assistance of those who intend spending their Summer vacation on Vancouver Island, we offer below a few suggestions as to resorts and their attractions, all of which are served by us with daily stage services.

SHAWNIGAN LAKE—27 miles from Victoria. Famous for trout fishing.

NANAIMO—77 miles from Victoria. The hub of Vancouver Island and centre of the coal mining industry. Newcastle Island, the new C.P.R. resort, is located in Nanaimo harbor.

PARKSVILLE—100 miles from Victoria. Sea bathing; wonderful beach.

SPROAT AND GREAT CENTRAL LAKES—131 miles from Victoria in the heart of the mountain district. Fine scenery; trout fishing, etc.

CAMERON LAKE—114 miles from Victoria, in the Forest of Arden. Boating, bathing, fishing, hiking, mountain climbing.

QUALICUM BEACH—108 miles from Victoria. Golf, bathing, fishing, hiking, boating, tennis.

CAMPBELL RIVER—176 miles from Victoria. Centre of a wonderful region for hunting, salmon fishing, hiking, boating and bathing. Headquarters of the Tye Club of British Columbia.

FORBIDDEN PLATEAU—Our stages take you to Courtenay, 150 miles from Victoria, thence you travel by saddle pony over thirteen miles of good trail to this wonderful region of lakes and mountains in its virgin garb. Full information as to rates at our offices.

Call in and let us help plan your trip.

The Spotlight
BY
GRANTLAND RICEBy GRANTLAND RICE
(Copyright, 1931, by N.A.A. Inc.)**TILDEN AND COCHET**

The situation involving the tennis supremacy of Tilden and Cochet is a peculiar one. Tilden has said for some time that Cochet was much the better tennis player, and years beyond Big Bill's best. There are many who refuse to believe this, and among these are some who are not too friendly towards Tilden.

Cochet undoubtedly played better tennis from 1926 through 1930. But the Tilden of 1931 seems to be better than the Tilden of 1929-1930. Cochet's health hasn't been any too robust, and there will be a question as to whether he can stand the strain of a hard exhibition campaign.

But whatever happens later, the first meeting of these two old rivals will be one of the most interesting episodes of the year. Big Bill is now thoroughly seasoned, but his belief that Cochet has the edge may not be any too helpful. Cochet, for all that, will have to be at his best to win against a veteran who carries his years as lightly as anyone in competitive sport.

AN OLD BATTERY

More than two or three things have happened since the battery for Washington was Johnson and Street. Yet if it had not been for the Athletics, they would have met again last fall and possibly again this year as two world's series rivals. It took a super ball club last year to keep Johnson's Senators out of the main show, and this year, his team has won as many games and has as high a winning percentage as the Cardinals carry. Old Barney has done his part of it, but the athletic percentage is something to shoot at.

In this connection it might be offered that Gabby Street has also carried out the traditions of the old battery. His 1930 campaign was given only fair credit, in spite of the uphill fight his Cardinals made through the stretch. But the campaign of 1931 shows that Gabby belongs. He has handled his team ably all season, and this applies especially to his pitchers, who have been one of the main factors in his team's stand to date. He was in a tough race, with Cubs, Giants, Dodgers and Braves to beat back, but he is now just about through the underbrush of doubt.

THE STAMINA STABLE

With Exterminator and Sun Beau for his two leading entries, Willis Sharpe Kilmer at least leads the field in the Stamina Stables. Old Man Exterminator still looks as if he could run a good race, given a little time to warm up. Sun Beau has already collected \$300,000 for his share of the swag, and he isn't through yet.

Mr. Kilmer has figured it out that a race horse must like to be or to be like a winner. He is a winner, and he lets his racers keep at it as long as they seem to enjoy the big thrill of leading the field down the stretch.

LOU AND THE BABE

So far, and August is now steaming along, Lou Gehrig and Babe Ruth have taken official charge of most of the laurels hooked to the big ash. They are the two main home run campaigners and Babe is also leading in both leagues at bat. Gehrig has driven in more runs than anyone else, which just about gives this pair complete charge of the situation.

In past seasons the Babe has usually hit off a dizzy clip down the stretch, and he may have to revert to past performances to beat out Gehrig and collect the home run crown that Hack Wilson hijacked a year ago.

HUTTON WINS**TORONTO CUP**

Tops Marksmen in Feature
Shoot With 117—Weather
Man Plays Tricks

TORONTO, Aug. 4 (CP).—The weatherman dumbed his whole bag of tricks over the Long Branch range here today and tried everything he could to provide a little variety in the second day's programme of the Ontario Rifle Association. Competitors at the 800-yard range in the City of Toronto match, second stage, were soaked to the skin. But, Colonel F. W. Hutton, Toronto, won the match.

Bert Major W. H. Ruffell, Esquimalt, B.C., tied for second place in the City of Toronto event with two others, scoring 115 to Hutton's 117. Lieutenant N. Cogswell, Calgary, was fifth with 114, Sgt. J. G. Cole, Regina, sixth with 113, and Captain D. R. Blair, Vancouver, Sgt. T. A. Jensen, Calgary, and Quartermaster A. E. Evans, Esquimalt, tied at 112 for eighth.

It was hot for the balance of the day. The Duke of Cornwall and York match resulted in a tie for first place between Sgt. W. J. Woods, of Hamilton, and Company Sergeant Major J. G. M. Embley, of Toronto, both scoring 117. The match was tied at 200 and 600 yards.

The competitors were augmented this morning by the arrival of the British rifle team, who will participate in matches with Canadian marksmen here and at Ottawa next week.

MAY BE DEPORTED
BEFORE TERM UP

Department of Justice Offers to Parole Communist and Send Him Back to Scotland

VANCOUVER, Aug. 4.—Federal authorities have offered to parole Allan Campbell, alias William McEwan, convicted Vancouver Communist, now held at Oakalla Prison under sentence of a year's imprisonment, if he will agree to deportation to Scotland.

The Department of Justice has issued a conditional parole to Campbell and has notified the prison and immigration authorities to that effect. If Campbell would prefer being returned to Scotland now it can be done, otherwise he can remain in prison until his term expires next Spring, and then be deported. He is to be sent out of Canada in any event, authorities state.

Campbell was convicted on charges of inciting to riot and seditious utterances.

Discovery of the last of the Cape Bushmen, who have inhabited Africa as far back as the Stone Age, has been reported by W. W. Fitzsimmons, director of the Municipal Museum at Port Elizabeth, South Africa. The man is believed to be 107 years old. He is blind, deaf, and barely able to stand. About the only thing he can enjoy is a pipeful of tobacco. He is believed to be a descendant of the cave-dwelling hunters who immortalized themselves in their paintings on the cave walls. Some of them are believed to have roamed Africa 100,000 years ago. The Cape Bushmen are believed to have been killed off by half-breed tribes.

Empire Service League to Meet**REPORT FIRES**
UNDER CONTROL

Blaze at Oyster River Not
Considered Serious—
Kelowna Fire Serious

VANCOUVER, Aug. 4 (CP).—Forest fires in the Interior and along the Coast of British Columbia, with one exception, which have been burning fiercely for several days, tonight were reported to be under control.

In the West Kootenay district the highway between Bridesville and Rock Creek has been closed to traffic owing to the serious conditions arising from a fire covering a territory seven miles long and three miles in width, but the flames are now believed to be in control of fire fighters.

The East Kootenay district, where fires were particularly fierce yesterday, tonight reported all conflagrations had been controlled.

NOT SERIOUS

On Oyster River, Vancouver Island, a fire is burning but is not considered serious.

Kelowna reports the only serious situation at present. A fire which had been burning for two weeks but had died down was fanned into life by a strong wind. After burning several buildings in the country north of Kelowna the wind shifted and other buildings were relieved from the threat. The blaze is still burning and additional fire fighters have been sent out to attempt to stop the march of the flames.

"I'm getting old," said the retired business man to his lawyer, "and I think it's time I made out my will. The trouble is, I don't know how to do it."

"Just leave everything to me," the lawyer replied.

"Well, you may get most of it," sighed the client, "but I did so want my wife and children to share in the remainder."

A cat and a West African parrot at Mulrend, Scotland, are staging wrestling matches daily.

INDIAN ROPE TRICK AGAIN

Expert magicians are puzzled over the showing of the Indian rope trick at the recent convention of the British Ring of the International Brotherhood of Magicians at Cheltenham, England. Professor Beyer threw a hemp rope into the air and it remained rigid to a height of fifteen feet, though its upper end appeared to be in his hand. The seven-year-old daughter of one of the delegates climbed, or appeared to climb, the rope until she reached the top, where she vanished. She was found in a wicker basket a few yards away from the rope, and said that she was unaware that anything had happened. A photographer declared that he saw the girl climbing the rope, took a photograph of the scene, but when he developed his plate only the rope could be seen. There was no sign of the girl.

Among the train passengers were an elderly Highlander and a young lad. The former was holding a watch in his hand and was studying it with intense interest. Suddenly he seemed satisfied and he beckoned the conductor to him.

"What is it," the latter asked.

"I want to pay the rest of my granddaddy's fare," replied the Highlander; "he has just become twelve years old."

THE TOONERVILLE TROLLEY THAT MEETS ALL THE TRAINS

SOME FOLKS CLAIM THE SKIPPER IS MAKING A DOGGONE DELIVERY WAGON OUT OF THE TROLLEY.

When the Duke and Duchess of Fernan Nunes were married in Paris recently the church of Saint-Honore was decorated with 8,000 white lilies, roses and carnations. Eggs laid in England last year were valued at \$35,000,000, double the value of those produced annually before the Great War.

KRAZY KAT

THE DOT CARTOONIST, BY GEORGE BELL
"The boys of today don't know what work is. I'd like to see one of 'em working at a..." (Kindly draw straight lines between the numbers)

How It Started
JEAN NEWTON

THE HOUSEWIFE'S "RECIPE"
It is a far cry from a physician's command to an apothecary to put into a prescription certain drugs to the housewife's formula for making her favorite chocolate layer cake; but that is how it started.

The word "recipe" is the Latin imperative which directed the compounder of medical ingredients of former days to literally "take" so much of this, so much of that and the other drug, and make them into a medicinal whole.

It is from this source that the word was borrowed to serve in the culinary sense, in which it is so widely used today.

CHANGE DATES FOR GIVING ADDRESSES

VANCOUVER, Aug. 4—A change has been made in the dates when Hon. Herbert Marler, Canadian Minister to Japan, will speak in Vancouver. It is now announced he will address the Canadian Club at Hotel Vancouver at noon, Monday, August 24, and a joint meeting of the Board of Trade, British Columbia Branch Canadian Manufacturers' Association, and the Japan-Canada Society at 6:30 p.m. at Hotel Vancouver, August 26.

Mr. Marler will deal with diplomatic relations in his address to the Canadian Club, and before the business men will speak of Canada's trade relations with Japan.

Women members of the English Parliament were far behind the men as talkers in the session lasting from October to May, Lord Bunsell Perry being the leader, his speeches filling 178 columns of The Gazette, against the Duchess of Atholl's eighty-seven.

Vancouver Island

First Exhibition Held At Galiano Is Success

Excellent Support Given by Exhibitors From Gulf Islands—Capt. N. F. Macintosh, M.P.P., Gives Inspiring Address at Opening

GALIANO, Aug. 4.—The first agricultural and industrial exhibition to be held upon Galiano took place on Wednesday last in the fine Community Hall, which building, it will be remembered, was officially opened by His Honor, ex-Lieutenant-Governor R. B. Bruce in May, 1929. Again, as upon that occasion, this spacious building was thronged with visitors from Victoria, Vancouver and practically all the islands of the Gulf of Georgia, both for the show and for the very enjoyable dance which took place in the evening of this 29th day of July, 1931. The greatest credit is due the hard working show committee, under the chairmanship of Capt. Ivan G. Denroche, for having so successfully carried out this event, which has now passed into the annals of this popular island.

Notwithstanding times of depression the exhibition was splendidly supported by no less than ninety-three competitors in the various classes from the islands of Galiano, Gossip, Mayne and Pender, and the honorary secretary, W. Miller Higgs, together with his able assistant, Ronald C. Page, had no light task in getting the 519 entries arranged in order for the judging, which commenced about 11 o'clock on the morning of the 29th.

Keith Brown, of Gossip Island, was superintendent of the show, and with those assisting him had everything in readiness for the official opening at 2 p.m. by Capt. Macgregor F. Macintosh, member of the Islands, who was accompanied by Mrs. Macintosh. In his opening address to the large crowd assembled outside the hall, Capt. Macintosh expressed the surprise and appreciation of both himself and Mrs. Macintosh at the effort which had been made in putting on so good an exhibition, for practically every section in the classification had been supported, and by exhibits of splendid quality. It was gratifying to see so representative a gathering of his constituency present upon the occasion of Galiano's first show; he realized that transportation facilities alone retarded the progress of these beautiful islands; it had been demonstrated that daily communication had already done for Salt Spring Island in being linked with Victoria; what daily communication would do for Gabriola Island which would be so shortly linked with Nanaimo and what daily communication would do for Galiano and Mayne, and those of the islands adjacent to Vancouver, and it was his hope, in time, to see such a communication established. Money for development was needed, but during the present times of depression this was something all were feeling the need of.

PROGRESSIVE SPIRIT
He paid a strong tribute to the progressive spirit which manifested itself in many ways upon Galiano Island and had very great pleasure in accepting the invitation sent to him as member for the Islands constituency to come and officially open this exhibition of agricultural and industrial pursuits. He then declared the show officially open. During the afternoon it was announced that W. W. Thomas, of Galiano, had secured the special prize for the highest number of awards throughout all sections of the exhibition which had been kindly offered by Captain Macintosh, and being called to the platform, Mr. Thomas, who is a veteran of the Imperial Army in India and a long resident upon Galiano, received from the hands of Mrs. Macintosh a beautiful little silver cigarette box suitably engraved. In expressing his thanks, Mr. Thomas stated that he hoped that the example he had endeavored to set would be an incentive to the younger generation to produce the best.

Tea was served upon daintily arranged tables on the platform during the afternoon by the ladies' committee, whilst the ice cream stall outside the building was a popular spot, especially with the children who had an exhibition of pets staged upon the shady side of the hall, and these caused a good deal of public interest.

The judges were Mrs. Macintosh,
